"What if American Studies is defined not so much in the pages of the most cutting-edge publications, but through what happens in our classrooms and other learning spaces?" In *Teaching American Studies* Elizabeth Duclos-Orsello, Joseph Entin, and Rebecca Hill ask a diverse group of American Studies educators to respond to that question by writing chapters about teaching that use a classroom activity or a particular course to reflect on the state of the field of American Studies. *Teaching American Studies* speaks to teachers with a wide range of relationships to the field. To start, it is a useful how-to guide for faculty who might be new to, or unfamiliar with, American Studies. Each author brings the reader into their classes to offer specific, concrete details about their pedagogical practice, and their students' learning. The resulting chapters connect theory and educational action as well as share challenges, difficulties, and lessons learned. The volume also provides a collective impression of American Studies from the point of view of students and teachers. What primary and secondary texts and what theoretical challenges and issues do faculty use to organize their teaching? How does the teaching we do respond to our institutional and educational contexts? How do our experiences and those of our students challenge or change our understanding of American Studies? Chapters in this collection discuss teaching a broad range of materials, from memoirs and novels by Anne Moody and Octavia Butler to cutting-edge cultural theory, to the widely used collection *Keywords for American Cultural*

*Studies*. But the chapters in this collection are also about dancing, eating, and walking around a campus to view statues and gravestones. They are about teaching during the era of Donald Trump, Black Lives Matter, and giving up authority in the classroom. *Teaching American Studies* is both a new way to think about American Studies and a timely collection of effective ways to teach about race, gender, sexuality, and power in a moment of political polarization and intense public scrutiny of universities.

Recent second language acquisition research is used here to present a language teaching programme based on the use of 'prefabricated language'. The authors show that the unit of language they term the 'lexical phrase' can serve as an effective basis for both second and foreign language learning.

*Stronger Writing Skills for Teens* offers middle and high school teachers strategies, techniques, and materials for teaching adolescent writing. It focuses on quality writing instruction and presents the modes of writing as defined by Common Core State Standards, with strategies, tips, and suggestions for teaching each mode.

Author Steve Sharp tells his students that the thesis statement is the sun around which EVERYTHING in their paper orbits. Every sentence must fall within its gravitational pull and obey rational orbital laws. Otherwise chaos ensues. If you really want to succeed in the academic world, you simply can't afford to leave your readers scratching their heads after they've read your paper, wondering, "What's the point of this? Why was this written?" **MASTERING THE THESIS STATEMENT** teaches you just about everything you need to know to write an effective thesis statement and improve the quality of your academic writing. Because writing is such hard work, you may have to revise your thesis many, many times before you discover the gem that shines brightest - a thesis that not

only suits the content and purpose of your paper but also truly reflects what you're trying to say.

In *The Analytical Writing* Adrienne Robins explains college writing as a process of discovery, as a series of strategies that any college student can learn to apply. All strategies explained in this text are based on sound theories of teaching writing and on the patterns of successful writers. Writing and thinking should not be separated, and presenting only the steps without the accompanying explanation of how they influence thinking would be of little more help than having no method at all. By using this text the students will see as they plan, draft, and revise how their writing helps clarify their thoughts. This clearly written and engaging textbook is illustrated by real examples of student writing and appropriate cartoons. The second edition was revised and updated based on the large-scale evaluation of the first edition completed by professors and students. The new edition reflects four essential values: recognizing the diversity of writing processes, the necessity of peer and teacher interaction with the writer on drafts, the integration of writing and reading, and the appropriate uses of technology. Specific features of this second edition include: -new writing samples -electronic citation formats -updated library use chapter with technological guidance -concise paragraph chapter -revised introduction and conclusion chapter -rhetorical as well as grammatical explanations for punctuation usage -new cartoons -exercises drawn from students' papers -a condensed chapter on research papers -and an expanded, and clearer, chapter on special assignments and other writing tasks A Collegiate Press book All the tips, ideas and advice given to, and requested by, MA students in Media and Communications, are brought together in an easy-to-use accessible guide to help students study most effectively. Based upon many years of teaching study skills and hun-

dreds of lecture slides and handouts this introduction covers a range of general and generic skills that the author relates specifically towards media and communications studies. As well as the mechanics of writing and presentations, the book also shows how students can work on and engage with the critical and contemplative elements of their degrees whilst retaining motivation and refining timekeeping skills. Of course the nuts and bolts of reading, writing, listening, seminars and the dreaded dissertation and essays are covered too. In addition advice on referencing, citation and academic style is offered for those with concerns over English grammar and expression. Aimed primarily at postgraduate students, there is significant crossover with undergraduate work, so this book will also prove of use to upper level undergraduate readers whether using English as a first or second language.

This practical booklet can help you write a compare and contrast essay by showing you the complete process of writing this type of paper. This systematic method will start with your assignment and end with a final proofreading. In between that first and last step, this writing method relies upon templates to help you build a well-organized compare-and-contrast paper. These templates show you exactly what to include in different places within the paper. You will no longer need to guess what to write and where to write it. By using the templates, the various pieces of the paper will work together to create a coherent draft. Follow the steps in order, from the first to the last, and do not skip any along the way. Each step builds on the previous steps. Assignment analysis turns into a table of factors, the table of factors turns into a working outline and topic sentences, and so on. By completing each step before moving on to the next, the next step will be easier. And so will the one after that. This booklet not only helps you write a complete paper, but it shows you a method to apply in any similar paper that relies on the compare-and-contrast model. Working the steps carefully the first time will teach you the method. Then, when you must write another compare-and-contrast essay, use this booklet as a reference to refresh your memory on the steps and templates. The more you use the method, the easier it will be.

Over 2,200 total pages !!! WARRANT OFFICER BASIC COURSE (WOBC) 1-18 INFORMATION Congratulations on your selection as a Warrant Officer of Marines. You are about to embark upon a truly remarkable journey as an officer of Marines. That journey begins with your successful completion of the Warrant Officer Basic Course (WOBC) at The Basic School (TBS) in Quantico, Virginia. Warrant Officers and Title 10: Warrant Officer (WO) is an appointed rank, vice a commissioned one. Chief Warrant Officers (Marine Gunners and Recruiting Officers) are commissioned. All Chief Warrant Officers and Warrant Officers must successfully complete the WOBC in order to retain their appointment or commission. Title 10 U.S.C. Section 1165 states: THE SECRETARY OF THE NAVY HAS THE AUTHORITY TO TERMINATE THE REGULAR APPOINTMENT OF ANY PERMANENT REGULAR WO AT ANY TIME WITHIN THREE YEARS AFTER THE DATE WHEN THE OFFICER ACCEPTED HIS ORIGINAL PERMANENT APPOINTMENT. A MARINE WHOSE APPOINTMENT IS TERMINATED MAY, UPON HIS REQUEST AND AT THE DISCRETION OF THE SECRETARY OF THE NAVY, BE ENLISTED IN A GRADE NOT LOWER THAN THAT HELD IMMEDIATELY PRIOR TO APPOINTMENT. THEREFORE, THE FIRST THREE YEARS AS A WO IS A PROBATIONARY PERIOD AND THE APPOINTMENT TO WO WILL BE TERMINATED IF A MARINE DOES NOT COMPLETE THE REQUIREMENTS OF THE WOBC. WOBC MISSION STATEMENT: Train and educate newly appointed warrant officers in the high standards of professional knowledge esprit-de-corps, and leadership required to transition from enlisted Marine to officer with particular emphasis on the duties, responsibilities and warfighting skills required of a provisional rifle platoon commander. The Warrant Officer Basic Course: The WOBC is an eighteen-week course that focuses on the transition from enlisted Marine to Marine officer. TBS and the WOBC focus on five horizontal themes that define expectations of all Marine Officers: (1) a man/woman of exemplary character, (2) devoted to leading Marines 24/7, (3) able to decide, communicate, and act in the fog of war, (4) a Warfighter who embraces the Corps' warrior ethos, and (5) mentally strong and physically tough. The universal concept that Marine Officers must be able to

assess situations, weigh the pros and cons of various decisions, make a decision, develop a plan, communicate that plan effectively, and supervise its execution is stressed and exercised throughout the course. The course will teach the science and art required for service of Marine Officers with an emphasis on decision making throughout. Provisional infantry and planning subjects are together used as the means or vehicle to teach and evaluate this process. Since all students are evaluated on leadership as Marine Officers; physical, mental, and emotional stress are incorporated throughout the course in order to evaluate the ability to lead in chaotic and stressful environments. Some individuals will be pushed close to their failing point, but the WOBC is designed to give students an opportunity to display positive leadership qualities in the face of adversity. The WOBC is not a “check in the block.” It is a course designed to provide students with the learning experiences necessary to effectively transition to service as a Marine Officer. Students who do not successfully complete the course face a variety of administrative actions, including repetition of the course, recycle to a six month lieutenant Basic Officer Course, revocation of appointment, or separation from the service. The WOBC curriculum is an academically rigorous, provisional infantry and staff planning based program of instruction (POI) which consists of approximately 935 hours of formal instruction. The POI includes classroom instruction, field exercises, sand table exercises, and discussion groups. Classroom instruction is designed around the flipped classroom model.

new material (56% of the articles are new), these invaluable reference books contain the collective experience of teachers who have successfully dealt with students' difficulty in mastering important concepts about human behavior. Each volume features a table that lists the articles and identifies the primary and secondary courses in which readers can use each demonstration. Additionally, the subject index facilitates retrieval of articles according to topical headings, and the appendix notes the source as it originally appeared in *Teaching of Psychology*, the official journal of the Society for the Teaching of Psychology, Division Two of the American Psychological Association. Divided into four sections (one for each specialty), the book suggests ways to stimulate interest, promote participation, grasp psychological terminology, and master necessary scientific skills. The *ESL Writer's Handbook* is a reference work for ESL students who are taking college-level courses. Because its purpose is to provide help with the broad variety of writing questions students may have when working on school assignments, the text focuses on English for Academic Purposes. Unlike other handbooks on the market, this book's sole purpose is to address the issues of second language learners. The spiral-bound *Handbook* complements a student writer's dictionary, thesaurus, and grammar reference book. It would be suitable as a text for an advanced ESL writing course when used together with the companion *Workbook* (978-0-472-03726-1). The new edition features significant revisions to Sections 3 and 4; in particular, both APA and MLA style guides have been updated and new sample papers for each are included. The new edition includes new and revised exercises and many new samples of student writing. Like its predecessor, the 2nd Edition has these special features: The topic selection is based on ESL writers' needs as observed by the authors over many years. The coverage of topics is more complete than the limited amount usually provided for ESL writers in first language or L1 handbooks. The explanatory language is appropriate for ESL students, in contrast to the more complex and idiomatic language of other English handbooks. Many of the examples of paragraphs, essays, research papers, and exercise sentences were written by ESL students to help users realize that they too can become effective writers.
