enforces, and interprets agreements related to an exchange of goods, services, properties, or money. According to contract law, an agreement made between two or more people or business entities, in which there is a promise to do something in return for a gain or advantage, is legally binding.

**Contract law books | Waterstones**

Contract law is usually governed by state common law; thus, different courts interpret particular elements of a contract differently. The standard elements in any contract include mutual assent, valid offer and acceptance, adequate consideration, capacity, and legality. A contract can be classified as either unilateral, bilateral, or multilateral. A unilateral contract is a promise from one party to another.

Because a contract is a voluntary obligation, in contrast to paying compensation for a tort and restitution to reverse unjust enrichment, English law places a high value on ensuring people have truly consented to the deals that bind them in court.
