Backpacker brings the outdoors straight to the reader's doorstep, inspiring and enabling them to go more places and enjoy nature more often. The authority on active adventure, Backpacker is the world's first GPS-enabled magazine, and the only magazine whose editors personally test the hiking trails, camping gear, and survival tips they publish. Backpacker's Editors' Choice Awards, an industry honor recognizing design, feature and product innovation, has become the gold standard against which all other outdoor-industry awards are measured.

The Great Depression was defined by poverty and despair, but visionary American filmmaker Busby Berkeley (1895-1976) managed to divert the public's attention away from the economic crash with some of the most iconic movies of all time. Known for his kaleidoscopic dance numbers featuring multitudes of performers in extravagant costumes, his musicals provided a brief respite for an audience whose reality was hard and bitter. Buzz: The Life

and Art of Busby Berkeley is a revealing study of the director, drawing from interviews with his colleagues, newspaper and legal records, and Berkeley's own unpublished memoirs to uncover the life of a Hollywood legend renowned for his talent and creativity. Jeffrey Spivak examines how Berkeley's career evolved from creating musical numbers for other directors in films such as 42nd Street (1933) and Gold Diggers of 1933 (1933) to directing his own pictures, such as Strike up the Band (1940) and The Gang's All Here (1943). Though Berkeley claimed he was no choreographer, his movies revitalized the public's waning interest in musical pictures. While other popular filmmakers advertised their works specifically as nonmusical, Berkeley embraced his niche, eventually becoming the premier dance director of his time. However, the happy face Berkeley presented publicly did not necessarily reflect his life. Offstage and away from the set, the director met with scandal, and his fondness for liquor and women was well known. In September 1935, he was involved in a car accident that left three people dead and four others severely injured. Ac-

cused of driving under the influence, he was put on trial for second-degree murder. The accident significantly changed the nature of his stardom.

From a basic two-camera interview to an elaborate 26 camera HD concert film, this comprehensive guide presents a platform-agnostic approach to the essential techniques required to set up and edit a multi-camera project. Actual case studies are used to examine specific usages of multi-camera editing and include a variety of genres including concerts, talk shows, reality programming, sit-coms, documentaries for television, event videography and feature films. Other features include: * Advanced multi-camera techniques and specialty work-flows are examined for tapeless & large scale productions with examples from network TV shows, corporate media projects, event videography, and feature films. * New techniques for 3D projects, 2k/4k media management and color correction are revealed. * Technical breakdowns analyze system requirements for monitoring, hard drives & RAIDs, RAM, codecs and computer platforms. * Apple Final Cut Pro, Avid Media Composer, Adobe Premiere Pro and several other software programs are detailed. * Tables, charts, screen-grabs, photos, web-links, blogs, tech school lists and other resource tools for further study. * Unique interviews with the 'Masters of Multi-Cam' including EMMY and academy award-winning directors and editors who share their project notes and give insight to award-winning techniques.

The most important book on antitrust ever written. It shows how antitrust suits adversely affect the consumer by encouraging a costly form of protection for inefficient and uncompetitive small businesses.

In January 2009, the then Master of the Rolls, Sir Anthony Clarke, appointed Lord Justice Jackson to lead a fundamental review of the rules and principles governing the costs of civil litigation. This report intends to establish how the costs rules operate and how they impact on the behavior of both parties and lawyers.

This IBM® Redbooks® publication describes how to build produc-

tion topologies for IBM Business Process Manager V8.0. This book is an update of the existing book IBM Business Process Manager V7.5 Production Topologies, SG24-7976. It is intended for IT Architects and IT Specialists who want to understand and implement these topologies. Use this book to select the appropriate production topologies for an environment, then follow the step-by-step instructions to build those topologies. Part 1 introduces IBM Business Process Manager and provides an overview of basic topology components, and Process Server and Process Center. This part also provides an overview of the production topologies described in this book, including a selection criteria for when to select a topology. IBM Business Process Manager security and the presentation layer are also addressed in this part. Part 2 provides a series of step-by-step instructions for creating production topology environments by using deployment environment patterns. This process includes topologies that incorporate IBM Business Monitor. This part also describes advanced topology topics. Part 3 covers post installation instructions for implementing production topology environments such as configuring IBM Business Process Manager to use IBM HTTP Server and WebSphere® proxy server. Covers receipts and expenditures of appropriations and other funds.

Across the globe, Google, Amazon, Facebook, Apple and Microsoft have accumulated power in ways that existing regulatory and intellectual frameworks struggle to comprehend. A consensus is emerging that the power of these new digital monopolies is unprecedented, and that it has important implications for journalism, politics, and society. It is increasingly clear that democratic

societies require new legal and conceptual tools if they are to adequately understand, and if necessary check the economic might of these companies. Equally, that we need to better comprehend the ability of such firms to control personal data and to shape the flow of news, information, and public opinion. In this volume, Martin Moore and Damian Tambini draw together the world's leading researchers to examine the digital dominance of technologies platforms and look at the evidence behind the rising tide of criticism of the tech giants. In fifteen chapters, the authors examine the economic, political, and social impacts of Google, Amazon, Facebook, Apple, and Microsoft, in order to understand the different facets of their power and how it is manifested. Digital Dominance is the first interdisciplinary volume on this topic, contributing to a conversation which is critical to maintaining the health of democracies across the world.

The ancient Chinese art of Bagua Quan combines internal cultivation - the training of the mind - with external application, strengthening and supporting the health of the body. In this book, Master He explains the philosophy and techniques of Bagua Quan and provides the reader with an accessible approach to the practice of the art.

In this volume, the Study Group and the Acquis Group present the first academic Draft of a Common Frame of Reference (DCFR). The Draft is based in part on a revised version of the Principles of European Contract Law (PECL) and contains Principles, Definitions and Model Rules of European Private Law in an interim outline edition. It covers the books on contracts and other juridical acts, obligations and corresponding rights, certain specific contracts, and

non-contractual obligations. One purpose of the text is to provide material for a possible "political" Common Frame of Reference (CFR) which was called for by the European Commission's Action Plan on a More Coherent European Contract Law of January 2003. Announcing the wedding bible: the most complete, lively, hand-holding, step-by-step guide to help every couple have a perfect wedding—no matter their budget, taste, or personalities. More than 2.2 million North American couples tie the knot each year; until now, only a mere fraction could work with celebrity wedding planner Mindy Weiss. But the significant fact is not Ms. Weiss's clientele, but the reason for it: She's so very good at what she does. And now she shares all of her hard-won experience, wisdom, inspiration, and style tips. The Wedding Book covers everything, in a voice filled with understanding: announcing the engagement, and what to do when someone isn't happy about the news; creating a budget; the pros and cons of destination weddings. Drawing up the guest list; planning the ceremony (and how to personalize your vows); menus to inspire; contracts and wedding insurance. Shopping for the dress, six great hairstyles, tuxedo vs. dinner jacket, the etiquette of invitations. Style tips for flowers, the tabletop, linens; a cake that says "you"; the crucial "Sixty Days Until I Do"; rehearsal dinner strategies; plus freezing the cake and preserving the bouquet. Today the average cost of a wedding is \$25,000—at \$19.95, The Wedding Book is the smartest investment a bride-to-be could make.
