The survey protocols and interpretive guidelines serve to clarify and/or explain the intent of the regulations. All surveyors are required to use them in assessing compliance with Federal requirements. Deficiencies are based on violations of the regulations, which are to be based on observations of the nursing home's performance or practices.

Oral treatment with tavapadon eased motor symptoms and was well-tolerated by patients with early-stage Parkinson's, ac-

ording to data from a Phase 2 clinical trial. Cerevel Therapeutics' tavapadon (formerly known as PF-06649751) is a selective partial agonist of the dopamine D1 and D5 receptors, and is given as an oral once-daily tablet.

ties should adapt to Phase 2 requirements along with risk management strategies to avoid citations.

Reduce Citation Risk: Understanding Phase 2 Requirements ...

Ok, so a Phase II. Let's say the results of a Phase I ESA come back and there's a chance contamination is present. It's not the end of the world, and the information could be wrong. What's recommended at that point is a Phase II. While the Phase I ESA has to follow a very regimented routine, a Phase II is purely based off the findings of the ...
