What is Creative Problem Solving? CPS is a proven method for approaching a problem or a challenge in an imaginative and innovative way. It's a process that helps you redefine the problems and opportunities you face, come up with new, innovative responses and solutions, and then take action. The tools and techniques used make the process fun, engaging, and collaborative.

Quantitative data supported these impressions and showed a small increase in creative problem solving skills over the 14 weeks. This increase is greater for problem solving than for creative problem solving. In conclusion, it can thus be said that the non-formal learning program does contribute to students' problem solving skills.

ARTD6152 Creative Thinking and Problem Solving Module Overview The module been designed for the purpose of promoting and developing creative thinking and problem solving (CTPS) skills and addresses the need for individuals and teams who can 'think outside the box', and apply fresh thinking to practical, 'real world' problems.
