Since Sony Cyber-shot cameras lack a microphone jack, your audio quality is limited by the internal microphone. Yes, you could use an external recorder to capture higher quality audio to replace the camera's audio, but that is a hassle and that requires the proper computer software. The HX9V captures higher quality audio and images over the HX5V.

The HX99's sophisticated algorithms and high-performance gyro-sensor work together to compensate for camera shake. This provides a significant reduction in shake even with hand-held shooting at high zoom magnifications. Zoom Assist for easy framing of moving subjects Zoom Assist enables fast, easy framing of moving subjects at telephoto range.
