After a day of experiments, Trayaurus and DanTDM are about to call it a night when a strange-looking crystal plummets to earth, breaking into five pieces that scatter far and wide. DanTDM and Trayaurus recover one of the shards and quickly realize they are in possession of an object more powerful than anything they've ever known. Word reaches DanTDM and Trayaurus that other pieces of crystal have been recovered - a group of pigs have harnessed the crystals' power to enable them to talk. But they're not alone - their archenemy Denton has also found a shard and manipulated its power for evil. He has created a cloning machine, producing a terrifying, marauding army intent on hunting down the remaining crystals in his effort to become all-powerful. It's down to DanTDM and Trayaurus to stop him. Will they prevail, or will the forces of evil be too great for them to over-

come?"--Publisher.

This book explores the role and relevance of non-state actors (NSAs) in the international system by analyzing the ways these actors gain influence in the United Nations (UN). Offering a systematic, theoretical, and empirical account of how NSAs contest and potentially change state sovereignty through the UN the author considers the successes and failures of national liberation movements and indigenous peoples and examines how and under what conditions such a challenge is possible. This book will be of great interest to scholars and graduate students in the fields of international law, politics, history, human rights, and governance. It will be especially useful to those with an interest in the proliferation of non-state actors in the international system and the role and relevance of Intergovernmental Organizations.
