Mercury "Merc" WatsonNot your average boy next doorHot stud, indie music fan, dirty mechanicWith a panty-melting grinAnd eyes that hide dark secrets...I've often seen him on campus as I run from class to classGirls flock around him all the timeHe's too hot for words. Tall, muscular, handsome. Also distant, arrogant, in a trajectory so far from mine I can't hope to touch himMaybe it's for the best. I've sworn off men, you see. For good. Until one day he asks me out. Woo baby, right?Only he thinks I'm my twin sister. Then he admits that behind the golden façade he hides a dark secret and...I'm hooked. I need to know what it is. Solve the riddle. Without losing my heart to him.Easier said than done. ***This is a standalone, full-length romance with a HEA and no cliffhanger or cheating. ***This is the story of Merc, brother to Gigi and Octavia whom you met in Caveman and Bad Wolf.

A unique study of the link between theology and culture from a sociological perspective which addresses the issue of the pursuit of enchantment in the context of postmodernity. Sociology is applied to sociology itself to discern its own domestic response to theological readings of culture. A novel reading of Simmel, Bourdieu and Weber in relation to the Swiss Catholic theologian, Hans Urs von Balthasar, produces a controversial critique of assumptions regarding religious belief in the context of debates on secularisation and postmodernity.

This powerful reference tool is the most comprehensive, reliable guide to Internet resources for the LBGTQ community. More than just a guide to useful Web sites, it also evaluates LBGTQ mailing lists, message boards, search engines, and portals. The guide includes resources for a variety of academic disciplines, including the humanities, the social sciences, law, labor studies, media studies, transgender and intersex studies, and other areas of interest. The in-depth interviews with leaders of the queer Internet provide fascinating background information on the history and objectives of major sites. The Harvey Milk Institute Guide to Lesbian, Gay, Bisexual, Transgender, and Queer Internet Research is an indispensable tool for researchers, community leaders, and scholars. Athena Reynolds is a goddess in the kitchen, and she's got her Michelin-starred restaurant Olympus to back it up. Darling of the Chicago restaurant scene, she's flying high--until a betrayal leads to her sudden fall from grace. Furious and reeling, she heads home to the solace of family in Tennessee. Logan Maxwell has his hands full keeping his organic farm thriving and in the black. He doesn't have time to do more than wonder about the prickly mystery that is Athena Reynolds and relive their one passionate night together. Her life is in Chicago and his is irrevocably tied to his land. But that hasn't stopped him from craving more. But small towns are like small kitchens, everyone's constantly bumping into each other and sooner or later something's bound to boil over. Maybe that's why Logan finds it so hard to resist Athena. Well, that and the fact that he's never been able to walk away from a woman in distress. An unexpected confidant, Logan reminds Athena of her roots, and in turn, she begins to question everything she's spent years working for. They just might hold the keys to each other's salvation--but when her old life comes calling, can love win out over the temptation of redemption?

"I can think of no better guides than Professors Ken Gregory and John Lewin to lead the reader through the conceptual basis of this exciting science." - Victor R. Baker, University of Arizona "A very readable and informative introduction to the discipline for senior undergraduates, postgraduates and researchers." - Angela Gurnell, Queen Mary University of London "Time will tell, but this book may well mark a turning point in the way students and scientists alike perceive Earth surface processes and landforms." - Jonathan Phillips, University of Kentucky This student focused book provides a detailed description and analysis of the key concepts, ideas, and hypotheses that inform geomorphology. Kenneth Gregory and John Lewin explain the basics of landform science in 20 concepts, each the subject of a substantive, cross-referenced entry. They use the idea of the 'geomorphic system' to organise entries in four sections, with extensive web resources provided for each: System Contexts: The Systems Approach / Uniformitarianism / Landform / Form, Process and Materials / Equilibrium / Complexity and Non Linear Dynamical Systems System Functioning: Cycles and cascades / Force-Resistance / Geomorphic work / Process Form Models System Adjustments: Timescales / Forcings / Change Trajectories / Inheritance and Sensitivity / Anthropocene Drivers for the Future: Geomorphic Hazards / Geomorphic Engineering / Design and Prediction Aligned with the teaching literature, this innovative text provides a fully-functioning learning environment for study, revision, and even self-directed research for both undergraduate and postgraduate students of geomorphology.

One part diary, one part guide to the arcane practices of the funniest creation in modern fantasy, 100% Discworld goodness. With their trademark mix of cultural ephemera, background detail and hilarious one-liners, the Discworld diaries are back. And 2016's diary gives a long-awaited insight into the wit and wisdom of some of the Discworld's most-loved characters, the Witches. Or, as Granny Weatherwax puts it: "I don't hold with diaries. If a witch don't know where she's been or where she should be, no amount of writing it down in long and diverse letters will make any difference. There are some who say that making a note of birthdays and the like will mean you get a lot of presents but I think Gytha is wrong. But suit yourself. Personally I can't be doing with it." ~ Esme Weatherwax Wilson and Dufrene help readers foster the flexibility they need to keep from succumbing to the avoidable forces of anxiety, and open themselves to the often uncomfortable complexities and possibilities of life.

Discusses jobs that use technology, including a roller coaster designer, a space robotics engineer, and a wind turbine technician.

First Published in 2002. Routledge is an imprint of Taylor & Francis, an informa company.

From USA TODAY Bestselling Author Claudia Burgoa comes a single-dad sports romance where the only thing more heartfelt than the small town is the love story. I never wanted to go back to Baker's Creek. But when it rains, it pours. I lost my job, lost the guy, and lost the house. The perfect trifecta of ruin. Ten years after I said I can make it on my own, I have no choice but to ask for help. But it's my mother who needs me now... So it's back to where I don't belong. There's no opportunity in my hometown. The only job that I can get is nannying. For a player from the Vancouver Orcas. "Mean" Mills Aldridge is going to be my new boss... and I'm supposed to pretend he isn't sex on skates. Be-

tween avoiding the town mean girls, helping my parents, and trying not to behave like a puck bunny, my job with that sweet boy is fast becoming just like the rest of my life--one big complication. My only escape is my late-night chats with Mills. The confessions we share make me feel like I belong. The stolen kisses make it hard to remember why I ever left. Until the opportunity I've been waiting for arrives, and it's time for me to say goodbye. But can I leave that little boy and his father behind? The Baker's Creek Billionaire Brothers series is a romantic comedy saga that's swoonful and sexy, with the right mix of ugly-cry moments and sweet seductions.

This book is a survey of typical Science Fiction elements in Douglas Adams's Hitchhiker's Guide to the Galaxy. Christian Erkenbrecher first goes through a short history of Science Fiction and identifies certain motifs of the genre in order to correctly place the novel within a useful context. Classical elements of the Science Fiction canon are identified in the novel and scrutinized. It becomes clear that Douglas Adams was fully aware of the SF "burden" and we can see how its elements are used in order to create both humour and criticism. The question of whether social criticism can be applied purposefully in SF will be asked. Other big questions which are posed (and answered?) in Hitchhikers are also taken into consideration: Is there a god? Will the breakdown of communication barriers between races put an end to all wars? Can the advancement of technology prevent us from destroying ourselves? Follow the author on his way through Douglas Adams's "wholly remarkable book" and see how this exceptional hitchhiking playwright and atheist writer enriched the world with his unique prose.

Here are complete toasts for the best man -- frequently updated with new speeches. From traditional to unusual to pleasantly quirky, the speeches come with simple tips, explaining structure and tone. This is a short, to-the-point tool designed to unstick the brain and get ideas flowing.

I'm the type of girl who's given up on fairy tales. So when Beck - the hot new busboy at work - starts flirting with me, I know better than to get my hopes up. Happily ever afters aren't for the average. I learned that the hard way. But how can I be expected to resist a man who can quote Austen, loves making me laugh, and seems to be everything hot and good in this world? Only there's so much more to him than that. Billionaire playboy? Check. Troubled soul? Check. The owner of my heart, the man I've moved halfway across the country to be with, who's laying the world at my feet in order to convince me to never leave? Check. Check. Check. But nobody does complicated like the one percent. This is not your everyday rags-to-riches, knight-in-shining armor whisking the poor girl off her feet kind of story. No, this is much messier. "Rich Boy takes you on a literal ride! Funny. Angry. There's mean rich people and people you root for. It's a definite recommend from me! -Tijan, New York Times bestselling author "Rich Boy was witty, exciting and had the most intense slow burn romance I've read in a long time. The complexity of the characters was refreshing and made me wish for more!"—Audrey Carlan, #1 New York Times bestselling author

I met Bob Doroghazi when he dropped the first draft of his manuscript of *The Physician's Guide to Investing: A Practical Approach to Building Wealth* at my office. I will have to admit I was a bit skeptical: a physician writing a book on investments? During that first meeting with Bob, it became evident that he had been a successful physician and a successful investor, so I agreed to take a look at the book. I was in for a pleasant surprise. Bob's manuscript was easy to read and had specific advice useful to physicians, interspersed with lots of practical tidbits for any investor. Having written three college-level finance and investment texts, I was excited to be in on a project aimed at offering practical investment advice to a more general, yet specialized, audience. I had high expectations for the book and am pleased to say that I believe Bob has delivered a book that every physician interested in building wealth and protecting assets should read. Bob is a straight shooter; he tells it like he sees it in his book. Some doctors might be indignant on reading his statements, such as "Physicians sometimes have no idea of their limitations. This type of arrogance and ego can result in investing disaster." However, if you do have these limitations (and most professionals, even college professors, do), then reading Bob's book will help you recognize situations in which they can lead to poor investment decisions.

Welcome to the new gold standard in critical care transport training. Published in conjunction with the American Academy of Orthopaedic Surgeons (AAOS) and the American College of Emergency Physicians (ACEP), *Critical Care Transport* offers cutting edge content relevant to any healthcare provider training in critical care transport. Like no other textbook in this market, *Critical Care Transport* thoroughly prepares medical professionals to function as competent members of a critical care team by covering the material that everyone—paramedics, nurses, physicians, and specialty crew—needs to know to operate effectively in the prehospital critical care environment. This book meets the curricula of major critical care training programs, including University of Maryland, Baltimore County (UMBC). It covers both ground and flight transport, and meets the objectives of critical care transport certification exams such as the Certified Flight Paramedic (FP-C) exam administered by the Board for Critical Care Transport Paramedic Certification. Content includes information specific to prehospital critical care transport, such as flight physiology, lab analysis, hemodynamic monitoring, and specialized devices such as the intra-aortic balloon pump. Standard topics such as airway management, trauma, and pharmacology are covered in the context of critical care. Chapters have been authored by leading critical care professionals across the country and represent the most current, state-of-the-art information on management of critical care patients.

Up in the Alps, Cara's old life feels a million miles away. Nobody at Hope Hall knows her past. With secrets to keep, can Cara allow herself this chance to live again? New Year's Eve, San Francisco. The most promising party of the year ends in tragedy. Georgina is gone and nothing will bring her back. Nine months later, Cara's mother decides a Swiss boarding school will be the fresh start Cara needs. Up in the Alps, Cara's old life feels a million miles away. Nobody at Hope Hall knows her past - and she intends to keep it that way. Yet, as much as she keeps her distance, her new friends break down the walls she has so carefully built up - especially the offbeat, straight-talking Hector, who understands how she feels better than anyone. But the closer Cara grows to Hector, the more her old life slips away. Embracing life at Hope Hall means letting go of the past. With Georgina gone, how can Cara allow herself this second chance? **PRAISE FOR THE YEAR AFTER YOU:** 'A skilful, compelling story with intrigue that keeps you whipping over the pages.' - SOPHIE KINSELLA, author of *Finding Audrey* 'A poignant, touching story of grief and guilt that you will hold tight until the very last page . . . I loved this sad, beautiful, hopeful book.' - KATHLEEN GLASGOW, author of *Girl in Pieces* 'An exploration of grief and loss that breathes new life into the boarding school genre.' - LAUREN JAMES, author of *The Loneliest Girl in the Universe* 'A hugely moving, thoughtful and sensitively written story about friendship and growing up.' - SOPHIA MONEY-COUTTS, author of *The Plus One* 'It tugs at your heart strings and gives hope to those recovering from the loss of a loved one. Watching Cara slowly allow her heart to thaw after being frozen in so much pain was truly beautiful.' - AKEMI DAWN BOWMAN, author of *Starfish* and *Summer Bird Blue* 'A poignant story of grief and guilt, hope and healing, set against the backdrop of a Swiss boarding school. Beautifully written and very touching.' - SOPHIE

CAMERON, author of *Out of the Blue*

Space was at the center of America's imagination in the 1960s. President John F. Kennedy's visionary statement captured the mood of the day: "We choose to go to the moon in this decade and do the other things, not because they are easy, but because they are hard." The Apollo mission's success in July 1969 made almost anything seem possible, but the Cold War made space flight the province of governmental agencies in the United States. When the Apollo program ended in 1972, space lost its hold on the public interest, as the great achievements wound down. Entrepreneurs are beginning to pick up the slack—looking for safer, more reliable, and more cost effective ways of exploring space. Entrepreneurial activity may make create a renaissance in human spaceflight. The private sector can energize the quest for space exploration and shape the race for the final frontier. Space entrepreneurs and private sector firms are making significant innovations in space travel. They have plans for future tourism in space and safer shuttles. Solomon details current US and international laws dealing with space use, settlement, and exploration, and offers policy recommendations to facilitate privatization. As private enterprise takes hold, it threatens to change the space landscape forever. Individuals are designing spacecraft, start-up companies are testing prototypes, and reservations are being taken for suborbital space flights. With for-profit enterprises carving out a new realm, it is entirely possible that space will one day be a sea of hotels and/or a repository of resources for big business. It is important that regulations are in place for this eventuality. These new developments have great importance, huge implications, and urgency for everyone.
