This book is an essential purchase for all candidates sitting Part 1 of the PLAB exam administered by the UK General Medical Council. All doctors from non-EC countries who wish to practice in UK must sit the PLAB exam which comprises 200 Extended Matching Questions (EMQs). This book contains 1000 practice EMQs of a similar type to those in the exam. The questions cover all aspects of the new syllabus, which not only includes a range of clinical topics but also requires knowledge of the GMC's Duties of a Doctor, principles and practice of evidence-based medicine, and clinical governance. Recommended to all candidates sitting the new PLAB test.

The new "bible" for NBDE Part I preparation! This is the only high-yield but comprehensive review of topics examined on the National Board Dental Exam (NBDE) Part I—written by dental students for dental students. It includes 200 black-and-white plus 8 pages of four-color images likely to be tested on the exam. Also includes information and advice about sitting for the exam itself.

Unleash powerful teaching and the science of learning in your classroom Powerful Teaching: Unleash the Science of Learning empowers educators to harness rigorous research on how students learn and unleash it in their classrooms. In this book, cognitive scientist Pooja K. Agarwal, Ph.D., and veteran K-12 teacher Patrice M. Bain, Ed.S., decipher cognitive science research and illustrate ways to successfully apply the science of learning in classrooms settings. This practical resource is filled with evidence-based strategies that are easily implemented in less than a minute—without additional prepping, grading, or funding! Research demonstrates that these powerful strategies raise student achievement by a letter grade or more; boost learning for diverse students, grade levels, and subject areas; and enhance students' higher order learning and transfer of knowledge beyond the classroom. Drawing on a fifteen-year scientist-teacher collaboration, more than 100 years of research on learning, and rich experiences from educators in K-12 and higher education, the authors present highly accessible step-by-step guidance on how to transform teaching with four es-

sential strategies: Retrieval practice, spacing, interleaving, and feedback-driven metacognition. With Powerful Teaching, you will: Develop a deep understanding of powerful teaching strategies based on the science of learning Gain insight from real-world examples of how evidence-based strategies are being implemented in a variety of academic settings Think critically about your current teaching practices from a research-based perspective Develop tools to share the science of learning with students and parents, ensuring success inside and outside the classroom Powerful Teaching: Unleash the Science of Learning is an indispensable resource for educators who want to take their instruction to the next level. Equipped with scientific knowledge and evidence-based tools, turn your teaching into powerful teaching and unleash student learning in your classroom.

"Nobody asked you to show up." Every experienced product manager has heard some version of those words at some point in their career. Think about a company. Engineers build the product. Designers make sure it has a great user experience and looks good. Marketing makes sure customers know about the product. Sales get potential customers to open their wallets to buy the product. What more does a company need? What does a product manager do? Based upon Product School's curriculum, which has helped thousands of students become great product managers, The Product Book answers that question. Filled with practical advice, best practices, and expert tips, this book is here to help you succeed!

AN INSTANT NEW YORK TIMES BESTSELLER A REESE'S BOOK CLUB PICK Tired, stressed, and in need of more help from your partner? Imagine running your household (and life!) in a new way... It started with the Sh*t I Do List. Tired of being the "shefault" parent responsible for all aspects of her busy household, Eve Rodsky counted up all the unpaid, invisible work she was doing for her family--and then sent that list to her husband, asking for things to change. His response was...underwhelming. Rodsky realized that simply identifying the issue of unequal labor on the home front wasn't enough: She needed a solution to this universal problem. Her sanity, identity, career, and marriage depended on it. The result is Fair Play: a time- and anxiety-saving system that offers couples a completely new way to divvy up domestic responsibilities. Rodsky interviewed more than five hundred men and women from all walks of life to figure out what the invisible work in a family actually entails and how to get it all done efficiently. With 4 easy-to-follow rules, 100 household tasks, and a series of conversation starters for you and your partner, Fair Play helps you prioritize what's important to your family and who should take the lead on every chore, from laundry to homework to dinner. "Winning" this game means rebalancing your home life, reigniting your relationship with your significant other, and reclaiming your Unicorn Space--the time to develop the skills and passions that keep you interested and interesting. Stop drowning in to-dos and lose some of that invisible workload that's pulling you down. Are you ready to try Fair Play? Let's deal you in.

Brain Quest is beloved by kids, trusted by parents, used and recommended by teachers. It's the curriculum-based, fast-paced, question-and-answer game that challenges kids on the stuff they need to know, when they need to know it. It's the brand that says "It's fun to be smart!" And it delivers. For the fourth edition every deck is thoroughly revised and includes 20 percent new material. The content aligns with national and state standards and is overseen by the Brain Quest Advisory Board, a panel of award-winning educators, each a recent state teacher-of-the-year award winner or a recipient of the prestigious Milken Educator Award. The covers and cards have a refreshed design, giving Brain Quest a cooler, updated look.

"Anyone who comes to pitch on Shark Tank should read this book first!" —Barbara Corcoran, ABC's Shark Tank "I have seen literally thousands of companies trying to raise capital and know that a great pitch deck is critical. This book gives you the playbook for creating yours." —Naval Ravikant, cofounder and CEO, AngelList "I raised twice the amount of money I set out to in a mere five weeks. I'm naming my firstborn child after the Evans." —Slava Menn, cofounder and CEO, Fortified Bicycle HOW DO YOU LAUNCH THE VENTURE OF YOUR DREAMS? Get Backed isn't just about startup fundraising. It's a handbook for anyone who has an idea and needs to build relationships to get it off the ground. Over the last 3 years, entrepreneurs Evan Loomis and Evan Baehr have raised \$45 million for their own ventures, including the second largest round on the fundraising platform AngelList. In Get Backed, they show you exactly what they and dozens of others did to raise money—even the mistakes they made—while sharing the secrets of the world's best storytellers, fundraisers, and startup accelerators. They'll also teach you how to use "the friendship loop", a step-by-step process that can be used to initiate and build relationships with anyone, from investors to potential cofounders. And, most of all, they'll help you create a pitch deck, building on the real-life examples of 15 ventures that have raised over \$150 million. What's in the book? • The original pitch decks and fundraising strategies of 15 ventures that raised over \$150 million • Email scripts that will get you a meeting with angel investors, venture capitalists, and potential board members • Pitching exercises developed by startup talent beds like Stanford University's d.school and Techstars • A breakdown of the 10 essential pitch deck slides, how to create them, and what questions you should answer with each • An overview of the 5 main funding sources for startups, the pros and cons of each, and who the big players are • A crash-course in visual and presentation design that will make any deck beautiful • Templates for 4 stories every entrepreneur should know how to tell • The story of one entrepreneur who showed up in Silicon Valley with no network and six months later had investments from Fred Anderson, Bono, and Peter Thiel Get Backed will show you exactly what it takes to get funded and will give you the tools to make any idea a reality.

This book presents all the publicly available questions from the PISA surveys. Some of these questions were used in the PISA 2000, 2003 and 2006 surveys and others were used in developing and
