Ruth Bell Graham is known as the wife of evangelist Billy Graham. It was Ruth who influenced Billy, as his most trusted life-partner. In *Ruth*, a Portrait, we meet this fascinating and remarkable woman. Brimming with anecdotes, this is a breathtaking journey, with stops at many of this century's epoch-making events. The childhood years of the future Mrs. Billy Graham were spent light-years away--in the China of the 1920s and 1930s. The daughter of medical missionaries, she and her family were caught in a crucible of unspeakable hardship; in addition to pestilence and plague, there was the unstable political and military turmoil surrounding the Nationalist government, the Communists, and the Japanese invaders. These hazardous realities shaped Ruth Bell and her family, a family inured to difficulties, but buoyed up by their deep belief in God's abiding will. Virtually raised by the Grahams, the author is a repository of Ruth Bell Graham's stories and has seen firsthand the spirit of this courageous woman. Patricia Cornwell not only gives readers a full, rounded, and intimate portrait of Ruth Bell Graham, but also insight into the life of the Graham family and particularly Billy Graham.

Postmortem introduces Dr. Scarpetta, who knows the smell of bone dust from a skullcap saw and how to read a body for clues via lasers, DNA, and computers. As Scarpetta slowly closes in on a killer known as Mr. Nobody, she gets the creepy, well-informed feeling that the killer is closing in on her. Cornwell's debut swept the mystery-writing awards and made her somebody. In *Body of Evidence*, Scarpetta investigates the murder of a Southern writer who mysteriously opened the door for her killer. In *All That Remains*, she hunts a serial killer of young lovers--including the daughter of the president's drug czar, which complicates the forensic chase with political intrigue. Besides suspenseful cat-and-mouse games between sleuth and killer (and writer and reader), Cornwell creates a rich cast of screwed-up characters, chiefly Scarpetta's scruffy confrere, Detective Pete Marino. Scarpetta's character is a magnetic combination of pride, drive, brains, extreme skill at cooking, and a pervasive sadness expressed with tightly wound eloquence.

“When it comes to the forensic sciences, nobody can touch Cornwell.” —New York Times Book Review [PLEASE BOX:] CHAOS From the Ancient Greek (χάος or khaós) A vast chasm or void. Anarchy. The science of unpredictability. On a late summer evening in Cambridge, Massachusetts, Dr. Kay Scarpetta and her investigative partner, Pete Marino, respond to a call about a dead bicyclist near the Kennedy School of Government. It appears that a young woman has been attacked with almost superhuman force. Even before Scarpetta’s headquarters has been officially notified about the case, Marino and Scarpetta’s FBI agent husband, Benton Wesley, receive suspicious calls, allegedly from someone at Interpol. But it makes no sense. Why would the elite international police agency know about the case or be interested? It soon becomes apparent that an onslaught of harassment might be the work of an anonymous cyberbully named Tailend Charlie, who has been sending cryptic communications to Scarpetta for over a week. Even Lucy, her brilliant tech-savvy niece, can’t trace who it is or how this person could have access to intimate information. When a second death shocks Scarpetta to her core, it becomes apparent she and those close to her are confronted with something far bigger and more dangerous than they’d ever imagined.

Kay Scarpetta finds herself pitted against a possible bioterrorist in this suspense-filled read from #1 New York Times bestselling author Patricia Cornwell. When a woman turns up dismembered in a landfill, Scarpetta initially suspects the work of a serial killer she's been tracking. But her investigation turns far more dangerous when she realizes the victim's skin is covered in an unusual rash—and Scarpetta herself may have just been exposed to a deadly virus.

Dr. Kay Scarpetta is working a suspicious death scene in Cambridge, Massachusetts when an emergency alert sounds on her phone. A video link lands in her text messages and seems to be from her computer genius niece Lucy. But how can it be? It's clearly a surveillance film of Lucy taken almost twenty years ago. As Scarpetta watches she begins to learn frightening secrets about her niece, whom she has loved and raised like a daughter. That film clip and then others sent soon after raise dangerous legal implications that increasingly isolate Scarpetta and leave her confused, worried, and not knowing where to turn. She doesn't know whom she can tell--not her FBI husband Benton Wesley or her investigative partner Pete Marino. Not even Lucy. In this new novel, Cornwell launches these unforgettable characters on an intensely psychological odyssey that includes the mysterious death of a Hollywood mogul's daughter, aircraft wreckage on the bottom of the sea in the Bermuda Triangle, a grisly gift left in the back of a crime scene truck, and videos from the past that threaten to destroy Scarpetta's entire world and everyone she loves. The diabolical presence behind what unfolds seems obvious--but strangely, not to the FBI. Certainly that's the message they send when they raid Lucy's estate and begin building a case that could send her to prison for the rest of her life. A chilling psychological thriller about family - the ties that bind us, and the lies that destroy us. Perfect for fans of *The Girl on the Train* and *I Let You Go*.

'If you like Kathy Reichs, you'll like Jefferson Bass' *The Times*. Things have taken a dangerous turn at the Body Farm. Now Brockton, Miranda and the ME who carried out the autopsy are in grave danger. Suffering radiation sickness and worrying for his friends, Brockton delves into the town's gruesome past to discover the dark secrets and lies that have led to this engineer's murder and to find out who else the killer has in their sights...

But just because they're not talking doesn't mean the killing stops. Women are being murdered—ones who bear an unsettling resemblance to Carol Jordan. And when the evidence begins to point in a disturbing direction, thinking the unthinkable seems the only possible answer. Cornered by events, Tony and Carol are forced to fight for themselves and each other as never before. "McDermid is as smooth a practitioner of crime fiction as anyone out there . . . She's the best we've got." —*The New York Times Book Review*

In this provocative thriller, forensic expert Kay Scarpetta is surrounded by familiar faces, yet traveling down the unfamiliar road of fame.... It is the week before Christmas. A tanking economy has prompted Dr. Kay Scarpetta—despite her busy schedule and her continuing work as the senior forensic analyst for CNN—to offer her services pro bono to New York City's Office of the Chief Medical Examiner. In no time at all, her increased visibility seems to precipitate a string of unexpected and

unsettling events, culminating in an ominous package—possibly a bomb—showing up at the front desk of the apartment building where she and her husband, Benton, live. Soon the apparent threat on Scarpetta's life finds her embroiled in a surreal plot that includes a famous actor accused of an unthinkable sex crime and the disappearance of a beautiful millionaire with whom her niece, Lucy, seems to have shared a secret past. Scarpetta's CNN producer wants her to launch a TV show called *The Scarpetta Factor*. Given the bizarre events already in play, she fears that her growing fame will generate the illusion that she has a "special factor," a mythical ability to solve all her cases. She wonders if she will end up like other TV personalities: her own stereotype.

It's Dr. Kay Scarpetta's birthday, and she's about to head to Miami for a vacation with Benton Wesley, her FBI profiler husband, when she notices seven pennies on a wall behind their Cambridge house. Is this a kids' game? If so, why are all of the coins dated 1981 and so shiny they could be newly minted? Her cellphone rings, and Detective Pete Marino tells her there's been a homicide five minutes away. A high school music teacher has been shot with uncanny precision as he unloaded groceries from his car. No one has heard or seen a thing. In this 22nd Scarpetta novel, the master forensic sleuth finds herself in the unsettling pursuit of a serial sniper who leaves no incriminating evidence except fragments of copper. The shots seem impossible, yet they are so perfect they cause instant death. The victims appear to have had nothing in common, and there is no pattern to indicate where the killer will strike next. First New Jersey, then Massachusetts, and then the murky depths off the coast of South Florida, where Scarpetta investigates a shipwreck, looking for answers that only she can discover and analyze. And it is there that she comes face to face with shocking evidence that implicates her techno genius niece, Lucy, Scarpetta's own flesh and blood. Includes an exclusive excerpt from the riveting next novel in the Kay Scarpetta series, *DEPRAVED HEART*.

From America's #1 bestselling crime writers comes an extraordinary #1 New York Times bestselling Kay Scarpetta novel. Leaving behind her private forensic pathology practice in Charleston, South Carolina, Kay Scarpetta accepts an assignment in New York City, where the NYPD has asked her to examine an injured man on Bellevue Hospital's psychiatric prison ward. The handcuffed and chained patient, Oscar Bane, has specifically asked for her, and when she literally has her gloved hands on him, he begins to talk—and the story he has to tell turns out to be one of the most bizarre she has ever heard. The injuries, he says, were sustained in the course of a murder . . . that he did not commit. Is Bane a criminally insane stalker who has fixed on Scarpetta? Or is his paranoid tale true, and it is he who is being spied on, followed and stalked by the actual killer? The one thing Scarpetta knows for certain is that a woman has been tortured and murdered—and more violent deaths will follow. Gradually, an inexplicable and horrifying truth emerges: Whoever is committing the crimes knows where his prey is at all times. Is it a person, a government? And what is the connection between the victims? In the days that follow, Scarpetta; her forensic psychologist husband, Benton Wesley; and her niece, Lucy, who has recently formed her own forensic computer investigation firm in New York, will undertake a harrowing chase through cyberspace and the all-too-real streets of the city—an odyssey that will take them at once to places they never knew, and much, much too close to home. Throughout, Cornwell delivers shocking twists and turns, and the kind of cutting-edge technology that only she can provide. Once again, she proves her exceptional ability to entertain and enthrall.

Meanwhile it appears that Chandonne killed a woman in New York before his murderous spree in Virginia, but when Scarpetta looks more closely into that case with the NY prosecutor Jaime Berger, proof of his guilt is far from certain - in fact she begins to believe that he may not be the perpetrator of any of the crimes he is accused of. Galactus, France's answer to SpaceX, has just launched a communications satellite into orbit, but the payload actually harbors a frightening weapon: a nuclear bomb that can trigger a massive electromagnetic pulse (EMP). When the satellite is in position, Galactus's second-in-command, Dr. Nevaeh Patel, will have the power to lay waste to the world. A former astronaut, Patel believes she is following the directions of the Numen, aliens who saved her life when she space-walked outside the International Space Station. She is convinced that with the Holy Grail—just discovered by the owner of Galactus, eccentric treasure hunter Jean-Pierre Broussard—she can be reunited with the Numen, change the world's destiny, and become immortal with them. The countdown has begun when Special Agents Nicholas Drummond and Michaela Caine are thrown into the pending disaster. They must stop the EMP that would wreak havoc on communication and electronic systems on Earth, resulting in chaos and anarchy.
