Designing Great Beers: The Ultimate... book by Ray Daniels

Ray Daniels is the founder and director of the Cicerone Certification Program and author of Designing Great Beers and Best of American Beer and Food. Brewers Publications is the leading publisher of contemporary beer and brewing literature for today's craft brewers, homebrewers and beer enthusiasts.

Designing Great Beers by Ray Daniels

Part 1 of Designing Great Beers is a complete book in itself, focused solely on home-brewing ingredients and techniques (including three superb chapters on hops alone). Ray Daniels proves himself the “techie” type, infusing his introductory chapters with as much brewing math as brewing lore. Ray Daniels presents an analysis of the first and second place winning National Homebrew Contest recipes in over a dozen major beer styles. I use this book as a core reference when designing new beers; it allowed me to make the leap from brewing from other people's recipes to creating my own recipes in order to present my own interpretation of a particular beer style.

It is not a stretch to call Ray Daniels’ “Designing Great Beers” book a true classic that belongs on the shelf of any intermediate to advanced brewer. I’ve found it not only an interesting book to read but also a great reference book that I frequently go to when starting a new recipe from scratch.
