Progress - definition of progress by The Free Dictionary

Progress is the movement towards a refined, improved, or otherwise desired state. In the context of progressivism, it refers to the proposition that advancements in technology, science, and social organization have resulted, and by extension will continue to result, in an improved human condition; the latter may happen as a result of direct human action, as in social enterprise or through ...

Development And Progress Of The

The progress from one era to another is measured by the development of human faculties during that time. Kant thinks that

human faculties can reach their fullest expression only in free and peaceful circumstances (1784, 50), which in turn require a particular set of institutions.

Indeed, economic progress is cast as moral progress. The story tends to go something like this: Inventors, economists, and statesmen in Western Europe dreamed up a new industrialized world.

Is 'Progress' Good for Humanity? - The Atlantic

Development refers to developing countries working their way up the ladder of economic performance, living standards, sustainability and equality that differentiates them from so-called developed countries. The point at which developing countries become "developed" comes down to a judgment call or statistical line in the sand that is often based on a combination of development indicators.
