Dinosaur kisses. First edition. This edition published in 2013. Edition Description. Enjoying the excitement of the world, newly hatched dinosaur Dinah stomps and chomps through the day before seeing a kiss, then resolving to kiss someone herself without whomping, ... Dinosaur Kisses Dinosaur Kisses is about a little dinosaur named Dinah that hatches from her egg and observes the world for the first time. Dinah tries things for the first time including the stomp and

the chomp. She then sees the kiss happen and tries herself to do the same thing.

Despite its cuddly name, Dinosaur Kisses may be too boisterous for a bedtime book, and impressionable toddlers may take the biting story line a little too literally. But it is likely to be another rowdy story- and circle-time win for Stein, who's proving to be a master at anthropomorphizing critters with perfectly overemphatic kid-like mannerisms.

Drawn in thick outlines with a huge grin, wide eyes and a mottled yellow hide, Dinah stumps her way through minimally detailed prehistoric landscapes populated with anxious-looking smaller creatures. Children who groove on wimpy little butterfly kisses had best look elsewhere. A kissing cousin to Bob Shea's Dinosaur vs.... series.
