Disastrous Decisions: The Human and Organisational Causes of the Gulf of Mexico Blowout takes the reader into the realm of human and organisational factors that contributed to the Deepwater Horizon disaster in 2010. This event resulted in the loss of 11 lives in the explosions and fire, the sinking of the rig and untold damage to the environment and to the livelihood of Gulf residents.

**Disastrous Decisions The Human And Organisational Causes ...**

Earth's Challenge to Combat Human Presence. An-

thropocene: An era of time in which humans are the greatest geological force on earth, following the Holocene. While it is debated over the exact beginning of this period of time, one observation is that it began "when analyses of air trapped in polar ice showed the beginning of growing global concentrations of carbon dioxide and methane ...

### **Disastrous Decisions: The Human and Organisational Causes ...**

Most disasters are caused by human error—meaning wrong decisions. As drillers work and make decisions in teams, their interactions are obviously crucial, and ‘Group think’ or diffused responsibility can be fatal. Quote from Chapter 12: ‘Single point

accountability for decisions needs to be a social reality, not just a legal formula.

### **Disastrous Decisions : Andrew Hopkins : 9781921948770**

Humans make disastrous decisions. They hunt animals to extinction, deplete soil nutrients with extensive farming, and clear out wildlife habitats to build homes without considering the consequences. These decisions, though unintentional and

unnoticeable at first, lead to problematic and even irreversible tribulations. The risk of making disastrous decisions is now riskier than ever due to a ...
