### 3R5FYK - ALBERT DALE

Taking Hollywood as its focus, this timely book provides a sustained, interdisciplinary perspective on memory and film from early cinema to the present. Considering the relationship between official and popular memory, the politics of memory, and the technological and representational shifts that have come to effect memory's contemporary mediation, the book contributes to the growing debate on the status and function of the past in cultural life and discourse. By gathering key critics from film studies, American studies and cultural studies, Memory and Popular Film establishes a framework for discussing issues of memory in film and of film as memory. Together with essays on the remembered past in early film marketing, within popular reminiscence, and at film festivals, the book considers memory films such as Forrest Gump, Lone Star, Pleasantville, Rosewood and Jackie Brown.

This first major monograph chronicling the work and architectural philosophy of William Krisel features examples and insights from Krisel's own papers, culled from his personal collection as well as the extensive archives of the Getty Research Institute. Krisel's architectural drawings and renderings, as well as many archival photographs, highlight examples of his custom homes, mass-produced housing, and recreational facilities in Palm Springs and rest of the Coachella Valley. Contemporary photographs are by architectural photographer Darren Bradley. Heidi Creighton is a midcentury modern enthusiast, writer, collector, and researcher. In 2012, she purchased a Palm Springs home designed by William Krisel in 1957. Chris Menrad, a Southern California native, was drawn to Palm Springs in 1999 by its abundance of modernist architecture. He is a founding board member of the Palm Springs Modern Committee, an organization dedicated to the preservation of Desert Modern architecture and a real estate agent specializing in architectural properties in the Coachella Valley. He lives in a Krisel-designed home, which was the first Palm Springs' Class One historic Krisel/Alexander-built house.

Elements of Style, the Pulitzer Prize-winning playwright Wendy Wasserstein's first novel, is a scathing comedy about New York's high society facing the post-9/11 world. Francesca Weissman, an Upper East Side pediatrician rated number one by Manhattan magazine, floats on the fringes of the upper strata of privilege and aspiration. Through her bemused eyes we meet the thoroughbred socialite Samantha Acton; relentless social climber Judy Tremont; Barry Santorini, an Oscar-winning moviemaker accustomed to having his way; his supermarket heiress wife, Clarice; and more, tossed together in a frothy stew of outrageous conspicuous consumption and adulterous affairs that play out on Page Six. But when Wasserstein's madcap tour of the social lives and mores of twenty-first-century Manhattan veers into tragedy, we finally see the true cost of her characters' choices, and the beating heart of this dazzling novel.

The graduating seniors of a Seven Sisters college, trying to decide whether to pattern themselves after Katharine Hepburn or Emily Dickinson. Two young women besieged by the demands of mothers, lovers, and careers--not to mention a highly persistent telephone answering machine--as they struggle to have it all. A brilliant feminist art historian trying to keep her bearings and her sense of humor on the elevator ride from the radical sixties to the heartless eighties.

Anyone with an academic, professional, amateur, or recreational interest in the theatre is likely to want to look up details of particular plays sometimes - perhaps to check on the author, or on when they were first performed, or perhaps to see how many characters they have, and whether or not

they would be suitable for their theatre company or drama group to perform. The Oxford Dictionary of Plays provides essential information on the 1000 best-known, best-loved, and most important plays in world theatre. Each entry includes details of title, author, date of composition, date of first performance, genre, setting, and the composition of the cast, and more. A synopsis of the plot and a brief commentary, perhaps on the context of the play, or the reasons for its enduring popularity, follow. Around 80 of the most significant plays - from The Oresteia to Waiting for Godot - are dealt with in more detail. Genres covered include: burlesque, comedy, farce, historical drama, kabuki, masque, melodrama, morality play, mystery play, No, romantic comedy, tragicomedy, satire, and tragedy. An index of characters enables the reader to locate favourite characters, and trace the trajectory of major historical and legendary characters - such as Iphigenia - through world drama, including in plays that do not have entries in the Dictionary. An index of playwrights, with dates, allows the reader to find all the plays included by a particular author.

Compelled by Love, the true story of the ministry of Heidi and Rolland Baker in the war-torn, poverty and disease-stricken country of Mozambique, chronicles twenty-seven years of ministry among the poorest people on earth. The book is based upon the beatitudes as seen through the eyes of third-world pastors and missionaries. The Bakers have experienced God's miraculous provision of food to thousands, brought physical healing and spiritual wholeness to His poorest children, and witnessed the transformed hearts of people caught in desperate life or death situations. Their stories prove the reality of God's kingdom on earth, and demonstrate how to transform this world through the power of love.

In The Four Cultures of the Academy, William H. Bergquist identified four different, yet interrelated, cultures found in North American higher education: collegial, managerial, developmental, and advocacy. In this new and expanded edition of that classic work, Bergquist and coauthor Kenneth Pawlak propose that there are additional external influences in our global culture that are pressing upon the academic institution, forcing it to alter the way it goes about its business. Two new cultures are now emerging in the academic institution as a result of these global, external forces: the virtual culture, prompted by the technological and social forces that have emerged over the past twenty years, and the tangible culture, which values its roots, community, and physical location and has only recently been evident as a separate culture partly in response to emergence of the virtual culture. These two cultures interact with the previous four, creating new dynamics.

This work chronicles the rise of Western Union Telegraph from its origins in the helter-skelter ferment of antebellum capitalism to its apogee as the first corporation to monopolize an industry on a national scale. The battles that raged over Western Union's monopoly on nineteenth-century American telecommunications - in Congress, in courts, and in the press - illuminate the fierce tensions over the rising power of corporations after the Civil War and the reshaping of American political economy. The telegraph debate reveals that what we understand as the normative relationship between private capital and public interest is the product of a historical process that was neither inevitable nor uncontested. Western Union's monopoly was not the result of market logic or a managerial revolution, but the conscious creation of entrepreneurs protecting their investments. In the pro-

cess, these entrepreneurs elevated economic liberalism above traditional republican principles of public interest and helped create a new corporate order.

In 1789 in Sydney Cove, the remotest penal colony of the British Empire, a group of convicts and one of their captors unite to stage a play. As felons, perjurers and whores rehearse, their playmaker becomes strangely seduced. For the play's power is mirrored in the rich, varied life of this primitive land, and, not least, in the convict and actress, Mary Brenham.

When the women of the Wellesley class of 1969 entered the ivory tower, they were initiated into a rarefied world. Many were daughters of privilege, many were going for their "MRS." But by the time they graduated four years later, they faced a world turned upside down by the Pill, NOW, student protests, the counterculture, and the Vietnam War. In this social history, Miriam Horn retraces the lives of women caught on a historic cusp. This generation was the first to test-drive modern rules that remain complicated and contentious regarding sexuality, marriage, motherhood, paid work, spirituality, aging, and the difficulties of reconciling public and private life. The result is a story of uncommon subtleties and vibrancy that reflects this generation's fateful choices.

In plays such as *Isn't It Romantic*, *Uncommon Women and Others*, and the Pulitzer Prize-winning *The Heidi Chronicles*, Wendy Wasserstein put her finger on the pulse of her past-modern, post-feminist sisters and delivered her diagnosis with shrewd good humor and an unerring sense of the absurd. That same engaging sensibility bubbles through the twenty-nine essays in *Bachelor Girls*, in which Wasserstein presents her observations on: —Boyfriends: "The worse the boyfriend, the more stunning your American Express bill." —Role Models: "In the forties emulating an ideal woman meant bobbing your hair like Betty Grable's. In the eighties, because of Jessica Lange, women have to get a Pulitzer Prize-winning actor-playwright to fall in love with them, have a child by one of the world's great dancers, be nominated for two Academy Awards, and enjoy doing the laundry alone on a farm." —Success: "I knew my friend Patti was a big-time Hollywood agent the first time I saw her dial a telephone with a pencil." Ranging from the dietary secrets of lemon mousse to the politics of the second marriage, with stopovers at a bar mitzvah in Westchester, a chess tournament in Rumania, and a Tokyo production of *Isn't It Romantic*, *Bachelor Girls* is pure Wasserstein, which is to say, pure joy.

Pamela has the best birthday ever when her glamorous Aunt Louise takes her to see a Broadway musical.

The land outside of the Old City was supposed to be green, lush, hopeful. But the verdant fields are nothing but ash—and hope is nowhere to be found. Still, Alice and Hatcher are on a mission to find his daughter: a quest they will not forsake even as it takes them deep into the clutches of the mad White Queen or into the realm of the twisted and cruel Black King. From the author of *Lafayette in the Somewhat United States*, an examination of Hawaii, the place where Manifest Destiny got a sunburn. Many think of 1776 as the defining year of American history, when we became a nation devoted to the pursuit of happiness through self-government. In *Unfamiliar Fishes*, Sarah Vowell argues that 1898 might be a year just as defining, when, in an orgy of imperialism, the United States annexed Hawaii, Puerto Rico, and Guam, and invaded first Cuba, then the Philippines, becoming an international superpower practically overnight. Among the developments in these outposts of 1898, Vowell considers the Americanization of Hawaii the most intriguing. From the arrival of New England missionaries in 1820, their goal to Christianize the local heathen, to the coup d'état of the missionaries' sons in 1893, which overthrew the Hawaiian queen, the events leading up to American annexation feature a cast of beguiling, and often appealing or tragic, characters: whalers who fired cannons at the Bible-thumpers denying them their God-given right to whores, an incestuous princess pulled between her new god and her brother-husband, sugar barons, lepers, con men, Theodore Roosevelt, and the last Hawaiian queen, a songwriter whose sentimental ode "Aloha 'Oe" serenaded the first Hawaiian president of the United States during his 2009 inaugural parade. With her trademark smart-alecky insights and reporting, Vowell lights out to discover the off, emblematic, and exceptional history of the fiftieth state, and in so doing finds America, warts and all.

A cursory reading of the history of US colleges and universities reveals that campus crime has been part of collegiate life since the Colonial Era, yet it was not until the late 1980s that it suddenly became an issue on the public stage. Drawing from numerous mass media and scholarly sources and using a theoretical framework grounded in social constructionism, this text chronicles how four groups of activists - college student advocates, feminists, victims and their families, and public health experts - used a variety of tactics and strategies to convince the public that campus crime posed a new danger to the safety and security of college students and the ivory tower itself, while simultaneously convincing policymakers to take action against the problem. Readers from a range of disciplinary interests will find the book both compelling and valuable to understanding campus crime as a newly constructed social reality.

Lovers of *Divergent*, *The Hunger Games*, and *The Maze Runner* will be blown away by the breath-

taking new series from USA Today best-selling author Tamar Sloan and award-winning author Heidi Catherine.

Celebrated playwright and magnetic wit Wendy Wasserstein has been firmly rooted in New York's cultural life since her childhood of Broadway matinees, but her appeal is universal. Shiksa Goddess collects thirty-five of her urbane, inspiring, and deeply empathic essays—all written when she was in her forties, and all infused with her trademark irreverent humor. The full range of Wasserstein's mid-life obsessions are covered in this eclectic collection: everything from Chekhov, politics, and celebrity, to family, fashion, and real estate. Whether fretting over her figure, discovering her gentle roots, proclaiming her love for ordered-in breakfasts, lobbying for affordable theater, or writing tenderly about her very Jewish mother and her own daughter, born when she was forty-eight and single, Wasserstein reveals the full, dizzying life of a shiksa goddess with unabashed candor and inimitable style.

Addressing a field that has been dominated by astronomers, physicists, engineers, and computer scientists, the contributors to this collection raise questions that may have been overlooked by physical scientists about the ease of establishing meaningful communication with an extraterrestrial intelligence. These scholars are grappling with some of the enormous challenges that will face humanity if an information-rich signal emanating from another world is detected. By drawing on issues at the core of contemporary archaeology and anthropology, we can be much better prepared for contact with an extraterrestrial civilization, should that day ever come.

This year, the testing won't end at the Proving. Passing is no longer just about having a kind heart and a sharp mind. To spread Askala's word, Seekers also need to survive in this harsh new world. New tests will determine who's strong and tough enough to be the best of the best. Sam is determined to prove her father's vision is what the world needs. Mercy's about to discover she's more like her mother than she realized. Hawk believes he was destined to be a Seeker, but does that mean leaving the only girl he's ever loved? Luca knows he's never fitted in and isn't about to try. Who will pass and have the honor or representing Askala? And how will a society founded on peace succeed in a world where violence is power? Four teens are about to find out.

Linda Hutcheon develops a theory of adaptation through a range of media, from film and opera, to video games, pop music and theme parks, analysing the breadth, scope and creative possibilities within each. This new edition is supplemented by a new preface from the author, discussing both new adaptive forms/platforms and recent critical developments in the study of adaptation. It also features an illuminating new epilogue from Siobhan O'Flynn, focusing on adaptation in the context of digital media. She considers the impact of transmedia practices and properties on the form and practice of adaptation, as well as studying the extension of game narrative across media platforms, fan-based adaptation (from Twitter and Facebook to home movies), and the adaptation of books to digital formats. A Theory of Adaptation is the ideal guide to this ever evolving field of study and is essential reading for anyone interested in adaptation in the context of literary and media studies.

An insightful meditation on time, relationships and identity, *The Folded Clock* is a funny, thoughtful and inquisitive diary for fans of Olivia Laing and Jenny Offill Like many young people, Heidi Julavits kept a diary. Decades later she found her old diaries in a storage bin, and hoped to discover the early evidence of the person (and writer) she'd since become. Instead, they 'revealed me to possess the mind of a paranoid tax auditor'. Thus was born a desire to try again, to chronicle her daily life as a fortysomething woman, wife, mother and writer. The dazzling result is *The Folded Clock*, in which the diary form becomes a meditation on time and self, youth and aging, betrayal and loyalty, friendship and romance, faith and fate, marriage and family, desire and death, gossip and secrets, art and ambition. *The Folded Clock* is as playful as it is brilliant, a tour de force by one of the most gifted prose stylists in the English language.

The authorized biography of Pulitzer Prize-winning playwright Wendy Wasserstein. In *Wendy and the Lost Boys* bestselling author Julie Salamon explores the life of playwright Wendy Wasserstein's most expertly crafted character: herself. The first woman playwright to win a Tony Award, Wendy Wasserstein was a Broadway titan. But with her high-pitched giggle and unkempt curls, she projected an image of warmth and familiarity. Everyone knew Wendy Wasserstein. Or thought they did. Born on October 18, 1950, in Brooklyn, New York, to Polish Jewish immigrant parents, Wendy was the youngest of Lola and Morris Wasserstein's five children. Lola had big dreams for her children. They didn't disappoint: Sandra, Wendy's glamorous sister, became a high-ranking corporate executive at a time when Fortune 500 companies were an impenetrable boys club. Their brother Bruce became a billionaire superstar of the investment banking world. Yet behind the family's remarkable success was a fiercely guarded world of private tragedies. Wendy perfected the family art of secrecy while cultivating a densely populated inner circle. Her friends included theater elite such as playwright Christopher Durang, Lincoln Center Artistic Director André Bishop, former New York Times theater critic Frank Rich, and countless others. And still almost no one knew that Wendy was pregnant when, at age forty-eight, she was rushed to Mount Sinai Hospital to deliver Lucy Jane three months premature. The paternity of her daughter remains a mystery. At the time of Wendy's tragically early death less than six years later, very few were aware that she was gravely ill. The cherished confidante to so many, Wendy privately endured her greatest heartbreaks alone. In *Wendy and the Lost Boys*, Salamon assembles the fractured pieces, revealing Wendy in full. Though she lived an uncommon life, she spoke to a generation of women during an era of vast change. Revisiting Wendy's works—*The Heidi Chronicles* and others—we see Wendy in the free space of the theater, where her many selves all found voice. Here Wendy spoke in the most intimate of terms about everything that matters most: family and love, dreams and devastation. And that is the Wendy of Neverland, the Wendy who will never grow old.

"A powerful document of the inner lives and creative visions of men and women rendered invisible by America's prison system. More than two million people are currently behind bars in the United States. Incarceration not only separates the imprisoned from their families and communities; it also exposes them to shocking levels of deprivation and abuse and subjects them to the arbitrary cruelties of the criminal justice system. Yet, as Nicole Fleetwood reveals, America's prisons are filled with art. Despite the isolation and degradation they experience, the incarcerated are driven to assert their humanity in the face of a system that dehumanizes them. Based on interviews with currently and formerly incarcerated artists, prison visits, and the author's own family experiences with the penal system, *Marking Time* shows how the imprisoned turn ordinary objects into elaborate works of art. Working with meager supplies and in the harshest conditions—including solitary confinement—these artists find ways to resist the brutality and depravity that prisons engender. The impact of their art, Fleetwood observes, can be felt far beyond prison walls. Their bold works,

many of which are being published for the first time in this volume, have opened new possibilities in American art. As the movement to transform the country's criminal justice system grows, art provides the imprisoned with a political voice. Their works testify to the economic and racial injustices

that underpin American punishment and offer a new vision of freedom for the twenty-first century." The sisters Rosensweig are three extraordinary Brooklyn-born Jewish women.
