Yet nothing in Pern stays stable for long. Further dangers are beginning to emerge, however, as those calling themselves the Abominators plot together to destroy all the learning that has been discovered from the records of the Old Ones. And, on top of this, now comes a fresh and terrible catastrophe - a large cometary fragment is hurtling towards Pern and cannot be deflected. Everyone - dragons, riders, holders and craftsmen - must stand by to perform a giant rescue operation. As F'lessan, son of Lessa and F'lar, plays his heroic part in the events that follow, he is helped by Tai, his new weyr-mate. Will they be the ones to protect Pern or will it be the dragons who provide the solution to the dangers of the skies?

Shortly after Fiona's return to Fort Weyr, three Turns older and wiser, her queen, Talenth, is infected with the dreaded sickness that has consumed so many of Pern's precious fire-breathing dragons. Talenth's recovery and the recovery of all the other dragons of Pern is delivered by the unflagging efforts of Lorana and Kindan at Benden Weyr - but their one vital clue is only bought with the loss of all the dragons of Telgar Weyr. Fiona is sent to relieve the distressed weyrfolk of the now-dragonless Weyr. When her queen, Talenth, rises to mate, Fiona finds herself not only Telgar's senior Weyrwoman but in the center of the dilemma that confronts all Pern - how can the one thousand fighting dragons do the job of three thousand? And, if they can't, how long will it be before all of Pern is consumed by Thread?

Let Anne McCaffrey, storyteller extraordinare and New York Times and Sunday Times bestselling author, take you on a journey to a whole new world: Pern. A world of dragons and other worldly forces; a world of mighty power and ominous threat. If you like David Eddings, Brandon Sanderson and Douglas Adams, you will love this. Here is the saga of the mass evacuation from the volcanic southern continent, an entire group of people moved across the dangerous seas, guarded and guided by a flotilla of dolphins. Here, too, is the story of the creation of Ruatha Hold -- a mammoth undertaking in the early days of Pern. And here is one of the most fascinating dragon tales ever written by Anne McCaffrey, when Fort Weyr was the only weyr, and when dragonriders and dragons were overcrowded to danger point. As the news broke of three fresh weyrs to be established, a young girl, Torene, came to realize that her dragon could be the next Queen of the newly formed Benden Weyr...

Forbidden by her father to indulge in music in any way, a girl on the planet Pern runs away, taking shelter with the planet's fire lizards who, along with her music, open a new life for her.

Pursuing her dream to be a Harper of Pern, Menolly studies under the Masterharper learning that more is required than a facility with music and a clever way with words. Sequel to Dragonsong.

An enthralling biography of one of the most luminous shining stars of fantasy and science fiction, world builder and dragon master Anne McCaffrey, written by her son, collaborator, and most devoted fan While you've been to Pern . . . you haven't heard the stories behind the stories. I propose to fix that. When Anne McCaffrey's Hugo Award-winning novella "Weyr Search" appeared in the late 1960s as part of the novel Dragonflight, the science fiction universe was gloriously transformed as readers first experienced the exhilarating thrill of soaring with dragons. With the many Pern novels that followed, McCaffrey steadily won the hearts and unwavering devotion of millions of fans, eventually earning a permanent position on the New York Times bestseller list. Dragonholder celebrates the birth and growth of McCaffrey's breathtaking literary vision, as well as the momentous events of a life that was in many ways as extraordinary as the worlds and characters that McCaffrey created. No one understands or appreciates McCaffrey's life and work better than her son, Todd, does. In Dragonholder, her frequent coauthor and avid fan intimately examines his mother's childhood and early adulthood, the amazing gift of second sight she inherited from her own mother and grandmother, the trials she faced juggling a career and a family during the turbulent sixties, and her rise to literary stardom—and he reveals the events and influences that ultimately gave rise to the myriad wonders of Pern and the other miraculous worlds borne of Anne McCaffrey's unparalleled imagination.

In Anne McCaffrey's New York Times bestselling Dragonseye, join Weyrleaders, Holders, and Craftmasters in the creation of the legendary Star Stones and the teaching ballads of Pern! It's been two hundred years since the deadly Thread fell like rain upon Pern, devouring everything in its path. No one alive remembers that first horrific onslaught and no one believes in its return—except for the dragonriders. For two centuries they have been practicing and training, passing down from generation to generation the formidable Threadfighting techniques. Now the ominous signs are appearing: the

violent winter storms and volcanic eruptions that are said to herald the approach of the Red Star and its lethal spawn. But one stubborn Lord Holder, Chalkin of Bitra, refuses to believe--and that disbelief could spell disaster. So as the dragonriders desperately train to face a terrifying enemy, they and the other Lord Holders must find a way to deal with Chalkin—before history repeats itself and unleashes its virulence on all of Pern. . . .

BRILLIANT. BRILLIANT' -- ***** Reader review 'LOVED THIS BOOK - JUST COULDN'T PUT IT DOWN' -- ***** Reader review ***** MasterSinger Merelan and Harper Petiron were a brilliant and devoted couple. Mere-

lan was the most outstanding soprano ever heard on Pern and was often the only one who could master Petiron's technically accomplished compositions. When, after a long and difficult birth, Robinton was born to them, it should have been the culmination of a unique partnership. But Petiron, almost from the first day, had no time for his son, refusing to see the incredible talent the boy possessed, ignoring his achievements and maintaining a strict and disapproving vigilance over him at all times. Carefully, secretly, the Harper Hall took over, training the greatest talent Pern had ever seen - a talent that was more than just musical - for Robinton was able to talk to the dragons of Pern. As constant sadness beset his personal life, so a startling career sent him like a meteor through the Holds and Weyrs of Pern until, as MasterHarper, he became part of the great plan to rescue Lessa from the brutal rule of Holder Fax - Lessa, who was to be the saviour of the dragons of Pern.

A young woman allies with magnificent dragons in the Harper Hall trilogy, set within science fiction legend Anne McCaffrey's beloved and bestselling Dragonriders of Pern series. This collectable box set include all three books in the trilogy: Dragonsong, Dragonsinger, and Dragondrums.

Dragonflight: On the planet Pern, deadly "thread" falls from the sky and puts all living creatures at risk. The symbiotic relationship of dragon and rider is the planet's only hope for survival. Dragonflight is the story of Lessa, the last of the noble bloodline of Ruatha Hold. The dragonriders rescue her from servitude while searching for likely candidates to impress the new dragon queen. Lessa is successful at imprinting Ramoth, the new weyr, which makes her the leader of the Weyr and the mate of F'lar. As rider of the bronze dragon Mnementh, he is most suitable to lead the on-going struggle against the dreaded thread. Dragonquest: The deadly silver Threads are falling again. The dragonriders take to the air, their magnificent flying dragons destroying the shimmering strands before they reach the ground. F'lar has to find a better way to protect Pern before the Oldtimers dissent, or the fire-lizards stir up trouble, or his brother F'nor launches a suicide mission!

“Together, the words and pictures work seamlessly to deliver a powerful message: What we do matters.”—R. J. Palacio, The New York Times When the news reports are flooded with tales of hatred and fear, a girl asks her papa what she can do to make the world a better place. “Come with me,” he says. Hand-in-hand, they walk to the subway, tipping their hats to those they meet. The next day, the girl asks her mama what she can do—her ma-

ma says, "Come with me," and together they set out for the grocery, because one person doesn't represent an entire race or the people of a land. After dinner that night, the little girl asks if she can do something of her own—walk the dog . . . and her parents let her go. "Come with me," the girl tells the boy across the hall. Walking together, one step at a time, the girl and the boy begin to see that as small and insignificant as their part may seem, it matters to the world. In this lyrical and timely story, author Holly M. McGhee and illustrator Pascal Lemaître champion the power of kindness, bravery, and friendship in the face of uncertainty.

There was a sudden stench of a dead sea creature. There was the sudden horror of a huge black shape closing over her. There was nothing... Then there were pieces of memory, isolated fragments that were so horrible her mind refused to accept them. Intense heat and shivering cold; excruciating pain; dismembered pieces of the human body. Sawn bones and searing screams. And when she awoke she found she was in a world that was not earth, and with a face and body that were not her own. She had become a Restoree...

Their gifts were many and varied, ranging from the gently telepathic, to the rare and extremely valued Primes. On the Primes rested the entire economic wealth and communications systems of the civilized worlds. But Primes were scarce - only very rarely was a new one born. And now, on the planet Altair, in a small mining colony on the western mountain range, a new Prime existed, a three-year-old girl - trapped in a giant mud slide that had wiped out the rest of the Rowan mining community. Every Altarian who was even mildly talented could 'hear' the child crying for help, but no one knew where she was buried. Every resource on the planet was centred into finding 'The Rowan' - the new Prime, the first ever to be born on Altair, an exceptionally unique Prime, more talented, more powerful, more agoraphobic, more lonely, than any other Prime yet known in the Nine Star league...

After a vicious plague swept through the world of Pern, there are no longer enough dragons to fight off the current onslaught of Thread, the deadly spore that falls like rain from the skies and devours everything organic in its path. Pern's last best chance to rebuild the decimated dragon population lies with a group of young dragonriders and their dragons left stranded on an unexplored island. Leadership of these dragons and riders falls to Xhina, female rider of a blue dragon, who, as the most experienced dragonrider in the new Weyr, must earn the respect of all who follow her, as not everyone is ready to accept a female wingleader. She must solve the problem of how to get sufficient numbers of dragon eggs, although her newfangled ideas, like letting green dragons mate and lay eggs to hatch new dragons, cause uproar. All the while she must protect her people and baby dragons from the predators and, worse, traitors or all hope for Pern will be lost!

Volume III of The Dragonriders of Pern®, the influential series by sci-fi/fantasy titan Anne McCaffrey Never in the history of Pern has there been a dragon like Ruth. Mocked by other dragons for his small size and pure white color, Ruth is smart, brave, and loyal—qualities that he shares with his rider, the young Lord Jaxom. Unfortunately, Jaxom is also looked down upon by his fellow lords, and by other riders as well. His dreams of joining the dragonriders in defending Pern are dismissed. What else can Jaxom and Ruth do but strike out on their own, pursuing in secret all they are denied? But in doing so, the two friends will find themselves facing a desperate choice—one that will push their bond to the breaking point . . . and threaten the future of Pern itself.

When his boy soprano voice begins to change, Piemur is drafted by Masterharper Robinton to help with political work and is sent on missions that lead him into unusual and sometimes dangerous adventures.

The specter of sickness looms over the Weyrs of Pern, felling fire-lizards and threatening their dragon cousins, Pern's sole defense against the deadly phenomenon that is Thread. Fiona, the young rider of queen dragon Talenth, is about to assume the duties of a Weyrwoman when word spreads that dragons have begun succumbing to the new contagion. As more dragons sicken and die, Weyrleader B'Nik and queen rider Lorana comb Fort Weyr's archives in a desperate search for clues from the past that may hold the solution to the plague. But could the past itself prove the pathway to salvation for Pern's imperiled dragons? Guided by a mysterious ally from a wholly unexpected place, and trusting in the dragon gift for transcending time, Fiona will join a risky expedition with far-reaching consequences for both Pern's future and her personal destiny.

And now they had plans to try and overthrow the terrible Eosi, who for centuries had existed by subsuming members of the Catteni race, living in their bodies and ruling space through them. And the Botanists had received mysterious and unexpected help from the great beings they knew only as 'Farmers' - for the Farmers had thrown a huge impervious space bubble round Botany. Even as the Eosi ships tried to pulverise the rebellious planet, the bubble held firm. But, safe though they were behind the protective device, Kris Bjornsen, Zainal and all of the Council knew they had to go out and destroy the Eosi on their own ground. It fell to Zainal to risk his life in a desperate and daring mission to vanquish the monster life forms forever...

Fantastic characters and a great story line' -- ***** Reader review ***** When the Catteni ships descended on earth it was one of the most terrifying experiences humankind had ever known. Kris Bjornsen, along with thousands of others, found herself herded by force-whips into the hold of giant spaceships to be transported to the slave compounds of an alien planet. And even then it wasn't over. For, after a partially successful escape attempt, Kris was once more shipped across space - to an apparently empty and untamed planet. The Catteni just dumped an assorted load of humans and aliens on the strange world and left them to see what would happen. Brilliantly the refugees began to organize themselves into a pattern of survival. The planet was eerie and not as empty as it seemed. For someone - something - had built giant storage barns: the planet was being used as a huge larder - for an entity they could not comprehend. As Kris and her patrol set out to explore the enigmatic world she had yet another problem to contend with - the presence of Zainal, the high-ranking patrician Catteni who had been abandoned with the rest of them. Zainal was strong, brilliant, and...kind, and Kris was puzzled by his presence, his personality, and above all by the tenuous tie she felt towards him...

Kindan is an apprentice harper at the Harper Hall but he is finding the lessons very difficult and although he has his friends, Nonala, Kelsa and Verilan, he also has enemies, such as the bully Vaxoram. Things begin to improve for Kindan when he beats Vaxoram in a duel and Vaxoram becomes first his servant and then gradually his trusted friend. Then Kindan impresses a fire-lizard and becomes the proud owner of the magnificent Valla. At the hatching he meets Koriana, daughter of Lord Holder Bemim of Fort Hold. She also impresses and she and Kindan fall in love, but her parents disapprove and she has to return to Fort Hold. Then a plague begins to spread across Pern, killing nearly everyone infected. Kindan and his friends search the harper records to see if they can find a cure, but all they can find is mention of a similar plague over a hundred Turns past. As the plague gets worse Kindan and Vaxoram are sent to Fort Hold to help tend the sick. Kindan will be reunited with Koriana, but will she be free of the plague, and will he be able to find a cure before more people die?

For that is what they were - prisoners and dissidents from other worlds whom the hated Catteni had banished to an empty planet - or what they thought was an empty planet. Kris Bjornsen and her fellow slaves had survived very well - thanks to Zainal, a high ranking Catteni also trapped on Botany. Zainal knew the Catteni ways and the Catteni technology, and he had plans for fighting back. For, as he explained, the Catteni too were victims - subject to the mighty and terrifying Eosi race who used the Catteni as a galactic police force - and also used them in more grisly and horrifying ways. But the question remained - to whom did Botany really belong? Who had created the giant grain sheds and the mammoth machinery that tilled the great fields? The new inhabitants of Botany called them the 'Farmers' - and waited for the day they would come to harvest their crops. And when that happened, the refugees were awed into silence - for the Farmers were greater than anything the universe had ever seen.

With the help of Master-harper, Menolly and her fire lizards overcome the prejudice against a woman's becoming a harper on the planet Pern.

From "New York Times" bestselling author McCaffrey comes a special illustrated gift book edition featuring three beloved Pern stories and a thrilling new Dragonriders tale.

Anne McCaffrey draws the reader back in time to an earlier Pern to tell the story of one of Pern's great and true heroines. An air of pleasant anticipation hung so thickly over the Halls, Holds and Weyrs of Pern that it had affected even the businesslike ways of Moreta, the Weyrwoman of Fort Weyr, where her dragon, Queen Orlich, would soon clutch. Then without warning, a runnerbeast fell ill. Soon myriads of holders, craftsmen, and dragonriders were dying; and the mysterious ailment had spread to all but the most inaccessible holds. Pern was in mortal danger. For, if dragonriders did not rise to char Thread, the parasite would devour any and all organic life it encountered. The future of the planet rested in the hands of Moreta and the other deicated, lelfless Pernese leaders. But of all their problems, the most difficult to overcome was time. . . .

"The brain was perfect, the tiny, crippled body useless. So technology rescued the brain and put it in an environment that conditioned it to live in a different kind of body - a spaceship. Here the human mind, more subtle, infinitely more complex than any computer ever devised, could be linked to the massive and delicate strengths, the total recall, and the incredible speeds of space. But the brain behind the ship was entirely feminine - a com-

plex, loving, strong, weak, gentle savage - a personality, all-woman, called Helva..."

As long as the people of Pern could remember, the Holds had protected them from Thread, the deadly silver strands that fell from the sky and ravaged the land. In exchange for sanctuary in the huge stone fortresses, the people tithed to their Lord Holders, who in turn supported the Weyrs, whose dragons were Pern's greatest weapon against Thread. But not everyone on Pern was part of that system of mutual care and protection, particularly those who had been rendered holdless as punishment for wrongdoing. And there were some, like Jayge's trader clan, who simply preferred the freedom of the roads to the security of a hold. Others, like Aramina's family, had lost their holds through injustice and cruelty. For all the holdless, life was a constant struggle for survival. Then, from the ranks of the criminals and the disaffected, rose a band of renegades, led by the Lady Thella. No one was safe from Thella's depredations, and now her quarry was Aramina, reputed to have a telepathic link with dragons. But when Thella mistakenly vented her rage on Jayge's family, she made a dangerous mistake. For Jayge was bent on revenge . . . and he would never let her have the girl who heard dragons! "From the Hardcover edition.

Pern AL 50: the geneticist Wind Blossom is nearing the end of her long life and is painfully aware that the colonists are running out of the modern technology the settlers brought with them to Pern and that they are forgetting how to use what they do have. Society is beginning to revert to a feudal system and Wind Blossom is concerned that future generations may be hit by an illness they have no tools to fight and that mankind may subsequently be wiped off the face of Pern. AL 507: Lorana is training to be an animal healer but when she arrives at Benden Weyr she impresses a golden dragon and becomes a dragonrider. However, a deadly and mysterious plague begins to wipe out the dragons, leaving mankind no defence against the deadly Thread which has just begun to fall. Lorana has two firelizards who manage to travel Back in time to Wind Blossom's era. Wind Blossom discovers what is wrong with the dragons and comes up with a cure. She also devises a way to leave clues for Lorana so that she can discover the cure in her time and save the dragons, and thus the future of mankind on Pern.

He was also barely fifteen years old who 'moved' his body through kinesis. When the telepaths of earth suspected a plot to take over Padrugoi, the newly manned space station, they realised they needed his unique gifts to foil the insane plans of Barchenka, the space construction manager, but even they didn't realise how strong were his abilities to 'read' the minds of those about him and move heavy loads over vast distances. As his career progressed, so his talents increased beyond the dreams of those trying to reach out into space. Peter Reidinger was going to be the salvation of man's exploration of the stars. And even as he became the most important man on earth, so his friendship with the tiny orphan girl found in the floods of Bangladesh grew and flourished. For Amariyah too had psychic gifts which none, at first, could define. But these 'special' people were constantly at risk - hated and feared by the avaricious, the evil and the ignorant, whose con-

stant ambition was to destroy Peter Reidinger and those like him.

"Personable characters and superb storytelling make this an excellent choice. . . . Essential for Pern fans of all ages."—Library Journal (starred review)
The son of a miner, Kindan has no expectations for any other life. He loves his lessons with the camp's harper, but music isn't part of a miner's future. He also enjoys helping out with the camp's watch-wher—a creature distantly related to dragons and uniquely suited to work in dark, cold spaces—but even that important job can't promise a future above the ground. Then disaster strikes. In one terrible instant, Kindan loses his family and the camp loses its watch-wher. It will take a new friendship and a new responsibility to teach Kindan that even a seemingly impossible dream is never out of reach . . . and that light can be found in the deepest darkness. "A guaranteed pleaser [in] one of SF's most splendid and longest-lived sagas."—Booklist "Another delightful entry in the Pern series."—Publishers Weekly
