Church of MO: First Impression Ducati ST2

Switching Lcd Display From °f To °c (and Clock To 24-hour ...

Ducati thoughtfully provide you with a C-spanner to do the job, but the adjuster ring is masked by the remote reservoir on one side and the frame tubes on the other. You can't even change the preload by altering the length of the tie-rod like you can on the ST2 and ST4, as this is a one-piece casting on the ST3.

The ST2 was a replacement for the Paso, and represented a more focussed entry by Ducati into the burgeoning sport-touring market. In 1999 Ducati added to the range the ST4 model, which used the four-valve Desmoquattro motor derived from the Ducati 916 , but detuned for the ST bike.

Ducati ST series - Wikipedia

The LCD on my ST2 displays °F and a 12-hour clock. Close inspection suggests that there's a space where a °C symbol might show up, and logic suggests that there ought to be a software switch (see what I did there?) to change to °C and 24-hour clock.

Switching Lcd Display From °f To °c (and Clock To 24-hour ...

The reason is that the seals are not designed specifically for this Ducati application and the rubber portion extends inward on radius to interfere with spacer which has an exterior diameter of 48mm. While the inner portion of the rubber on the seal is 46mm in diameter and causes the rubber seal to tear when the steering head is rotated.
