Crack the Case System is a complete training program, covering every aspect of the infamous "case interview" favored by top management consulting firms and a growing number of Fortune 500 companies. David Ohrvall's step-by-step approach combines practical instruction on structuring, analytics and communication, as well as insider tips and insights gained from training thousands of candidates. CTCS includes over 150 bonus videos on mbacase.com, 42 practice cases, homework and drills. About the author: David Ohrvall is the global expert on the topic of case interviews. A dynamic and sought-after speaker, he trains several thousand MBAs and undergraduates each year at premiere business schools around the world, including Wharton, Stanford, Harvard Business School, Chicago Booth, Duke's Fuqua School of Business, INSEAD, Oxford and Cambridge. David also has an extensive private coaching practice that has helped launch hundreds of candidates into consulting, venture capital, and a variety of industries. David is a former management consultant (Bain & Company), and a graduate of the Wharton School (MBA & undergrad). Learn more about David at www.mbacase.com.

The use of complex graphs in case interviews has exploded. Interviewees have a very short time to look at the graph, analyze it, extract what is important and apply it to their answer. This book was designed to help understand the role of graphs in consulting (both during an interview and on the job). The authors introduce the Ivy Graph Framework to assist the analysis of graphs during interviews. In addition the book provides ten sophisticated cases with numerous graphs per case.

Cheng, a former McKinsey management consultant, reveals his proven, insider's method for acing

the case interview.

The Case Interview Workbook contains 60 case questions for management consulting interviews, with complete solutions. Every case is compiled and edited by a team of ex-consultants from McKinsey & Company, the Boston Consulting Group, and Bain & Company. This book fills the gap left by others by providing you with plenty of high-quality cases to practice on before your interview. Many cases are from actual interviews at the top-tier firms and cannot be found elsewhere. After working through this book, you will be prepared for every type of case question you may encounter: market sizing, estimation, operations, industry analysis, pricing, growth strategy, marketing, investment, M&A, market entry, customer segmentation, profitability, valuation, logic, issue identification, cost analysis, market expansion, and brainteasers, to name a few. These cases will help you prepare for interviews at leading management consulting firms, including McKinsey & Company, The Boston Consulting Group, Bain & Company, Oliver Wyman, Strategy& (formerly Booz & Company), A.T. Kearney, Roland Berger, and L.E.K, as well as for consulting roles at large firms such as Accenture, Deloitte, PwC, EY, and KPMG. Note that is a workbook, designed to complement other preparation books. You will have a hard time solving these cases without learning first elsewhere how to do so, e.g. which frameworks to use, how to use them, and how to structure a solution.

In "The Ultimate Case Interview Workbook," you'll sharpen your case interview skills to dominate your upcoming interview and land your dream consulting job. Taylor Warfield, a former Bain management consultant and interviewer, provides essential practice problems and challenging cases to develop the skills needed to get multiple job offers. Use this workbook to access: 65+ problems tailored towards each type of question in case interviews Feel confident across a range of interview questions including framework questions, market sizing problems, profitability assessments, breakeven analysis, charts & graphs analysis, brainstorming questions, and other qualitative questions 15 full-length cases based on McKinsey, BCG, and Bain interviews Build business acumen across a variety of industries (e.g., technology, retail, healthcare, energy, finance, non-profit) and functions (e.g., strategy, operations) Efficient practice that can be done individually or with a partner Save yourself time by working through carefully crafted practice problems and cases that teach you a new concept, strategy, or takeaway each time Warfield's former students include undergraduates, MBAs, advanced degree holders, and experienced hires. They have landed job offers at top consulting firms, including McKinsey, BCG, Bain, Deloitte, L.E.K., Oliver Wyman, and Accenture as well as at Fortune 500 strategy groups. "I felt really confident after my McKinsey interview - this book's cases prepared me perfectly! They were very similar to the ones I received in my first and final round interviews." -McKinsey Consultant, Wharton MBA Candidate "I had very little time before my next BCG interview. This book provided me with plenty of practice that I could do by myself. After working through these cases, I felt excited going into my interviews." -BCG Associate, Experienced Hire "These cases were much higher quality than those found in other case books. The explanations were detailed and thorough and I got to practice thinking like a true consultant." -Bain Consultant, Stanford Undergraduate Also visit HackingTheCaseInterview.com for a one-week online crash course to pass your upcoming interview.

Written for business leaders and consultants who are trying to solve significant problems and create measurable value. Readers can view the templates used in consulting studies and how they are used. All the foundational strategy and business analyses tools are taught along with the soft skills and practical tools to solve any business problem. This is the only book of its kind walking the reader step-by-step through a complete consulting study. This book follows an engagement team as they assist a large company in diagnosing and fixing deep and persistent organizational issues over an 8-week assignment. Readers will learn how they successfully navigate a challenging client environment, frame the problem and limit the scope, develop hypotheses, build the analyses and provide the final recommendations. We have placed the explanation of management consulting techniques within a lively and engaging storyline, which allows the reader to truly understand the challenges faced on consulting engagements, connect with the characters, and understand both

how and why they debated elements of the study. It is written so that the reader may follow, understand, and replicate a strategic engagement using the same techniques used by the leading firms, such as McKinsey, Bain, and BCG. To make the story realistic and useful, we have worked with one client engagement throughout the book. Using different examples and different clients to explain concepts would have made it difficult for readers to see the data linkages and development of the final recommendations. The client and engagement are fictitious. The data presented are also fictitious, but they are based on actual consulting engagements and the experiences of the author and the contributing McKinsey, BCG, et. al. partners at FIRMSconsulting.com & StrategyTraining.com. Mastering the Case Interview offers detailed advice on how to ace the case interview. This book outlines the general principles of managing the case interview, delineates the most common types of cases, and outlines a framework for approaching each type of case. The discussion of the basic principles of case analysis is complemented by an extensive array of interview examples that includes 20 sample case discussions and 200 practice questions.

Please note: This is a companion version & not the original book. Sample Book Insights: #1 The case interview is a unique interviewing format that firms such as McKinsey Company, Bain Company, Boston Consulting Group, Oliver Wyman, and others use. It is used to evaluate candidates with wide-ranging backgrounds. #2 The case interview is a trial run of the actual consulting interview. I learned that the most profitable skill I could learn while in school was not related to English, math, psychology, history, economics, or science. It was how to pass the case interview. #3 My experience as a job seeker and a consultant has shaped my perspective of the case interview. I've developed an uncommon insight into the case interview from having been on both sides of the table, and that's what I share with you here. #4 The case interview process is made up of seven parts. Part One provides a big-picture view of the process and the different types of evaluation tools used. Part Two covers quantitative assessments. Part Three discusses the fundamentals of tackling real case interviews. Part Four covers the primary frameworks you'll use to solve the business problems presented in the case interview. Part Five covers the traditional candidate-led case interview format. Part Six describes the other types of case interviews and how to handle them.

The Vault Guide to the Top 25 Consulting Firms, European Edition has arrived for 2014--the eighth edition of this invaluable career guide.

Addresses the demands of today's complicated interview processes, sharing case studies of senior managers in challenging interview situations to counsel candidates on such topics as working with a recruiter, landing an interview and conducting flawless pre- and post-interview activities.

Crack the Case System is a complete training program, covering every aspect of the infamous case interview favored by top management consulting firms and a growing number of Fortune 500 companies. David Ohrvall's step-by-step approach combines practical instruction on structuring, analytics and communication, as well as insider tips and insights gained from training thousands of candidates. CTCS includes over 150 bonus videos, 42 practice cases, homework and drills.

Professional career guide from the Vault Career Library providing detailed case-by-case explanations of the consulting interview and strategies for cracking it.

"I'm a HUGE fan of Alison Green's "Ask a Manager" column. This book is even better" Robert Sutton, author of The No Asshole Rule and The Asshole Survival Guide "Ask A Manager is the book I wish I'd had in my desk drawer when I was starting out (or even, let's be honest, fifteen years in)" - Sarah Knight, New York Times bestselling author of The Life-Changing Magic of Not Giving a F*ck A witty, practical guide to navigating 200 difficult professional conversations Ten years as a workplace advice columnist has taught Alison Green that people avoid awkward conversations in the office because they don't know what to say. Thankfully, Alison does. In this incredibly helpful book, she takes on the tough discussions you may need to have during your career. You'll learn what to say when: · colleagues push their work on you - then take credit for it · you accidentally trash-talk

someone in an email and hit 'reply all' · you're being micromanaged - or not being managed at all · your boss seems unhappy with your work · you got too drunk at the Christmas party With sharp, sage advice and candid letters from real-life readers, Ask a Manager will help you successfully navigate the stormy seas of office life.

"The information you need for your consulting cases, including: Framework for structuring and conquering case questions. Actual case interview questions with strategies. What to expect from your case. Real life case interview experiences. Must-know consulting lingo. How to solve questions."--Back cover.

Case Interview Questions for Tech Companies provides 155 practice questions and answers to conquer case interviews for the following tech roles: Marketing Operations Finance Strategy Analytics Business Development Supplier or Vendor Management ...and Product Management -- QUESTIONS COVERED IN THE BOOK Here are some of the questions covered in the book: Marketing Create a marketing campaign for Microsoft Office 365. Write a media statement to respond to Uber mischaracterizations voiced in a taxi leader's newspaper op-ed. Operations Describe how Apple's supply chain works. What challenges does Apple face on a day-to-day basis? What's the bottleneck for an Amazon Robot Picker? And what is the capacity of the assembly line, in units per hour? During the holiday season, Amazon customers shipped 200 orders per second. Amazon's data science team discovered that the average number of orders waiting to be shipped was 20,650. How long did the average Amazon order wait to be shipped? Finance What should Apple consider before implementing a shop-in-shop store inside Best Buy? If you projected a \$500M expense and the variance came in at \$1M, what are some of the explanations for why that is happening? Be prepared to give more than three scenarios. Business Development A car dealer partner wants to stop doing business with Uber. What should you do? How would you identify university faculty to source content for an online university? Strategy If you could open a Google store anywhere, where would it be and why? Give your analysis of several recent acquisitions that Google has made. Analytics What top metrics would you track for the Tinder online dating app? If 1,000 people opened the Uber app during one hour, how many cars do you need? Product Management Let's say we wanted to implement an Amazon Mayday-like feature in Gmail. How would that work? How would you any Microsoft product to a restaurant? AUTHOR BIO Lewis C. Lin, former Google and Microsoft executive, has trained thousands of candidates to get ready for tech interviews, using his proven interview techniques. Lewis' students have received offers from the most coveted firms including Google, Facebook, Uber, Amazon, Microsoft, IBM, Dell and HP. Lewis has a bachelor's in computer science from Stanford University and an MBA from Northwestern University's Kellogg School of Management. He's the author of several bestsellers including Interview Math, Rise Above the Noise as well as Decode and Conquer. HERE'S WHAT PEOPLE SAY ABOUT THE AUTHOR "Got the Amazon offer, with an initial package that was \$100K more than what I currently make at [a top 5 tech company]. It's a dream job for the role of Principal Product Manager for a [special project]. - Q.K. "Just signed the offer for a Google product marketing manager role. Your tips helped me relax and concentrate, so the time went by quickly even though it was really a tough interview." - D.E. "I had my in-person interviews down at Facebook last week and got my offer letter the next day! You were definitely a huge help in preparing for the interviews." - L.S.

To land a management consulting job at any of the top firms, including McKinsey, BCG, Bain, Deloitte, L.E.K., Oliver Wyman and Accenture, you must get through several rounds of case interviews. Whether your interview is in a few weeks or even tomorrow, this book is written to get you the maximum amount of knowledge in the least amount of time. I cut out all of the filler material that some other consulting books have, and tell you everything that you need to know in a clear and direct way. With this shortcut guide, you will: Understand and become proficient at the nine different parts of a case interview, and know exactly what to say and do in each step Learn the only framework strategy that you need to memorize to craft unique and tailored frameworks for every possible case scenario Gain knowledge of basic business terms and principles so that you can develop an astute business intuition Acquire the skills to solve any market sizing or other quantitative problem Uncover how to differentiate yourself from the thousands of other candidates who are fighting to get the same job you are Practice your case interview skills with included practice cases and sample answers Also visit HackingTheCaseInterview.com for a one-week online crash course to pass your upcoming interview.

The Interview Case Book offers 20 case discussions grouped into five categories: opportunity analysis, market response, performance gap analysis, action planning, and company expansion. Each interview is followed by a brief comment on the case type and the approach taken by the interviewee.

In addition to the case interviews and comments, each type of case is illustrated by an extensive number of case questions that function as a training ground for practice interviews. Across all five types of cases, this book offers an additional 200 practice questions. The questions are very diverse in nature and are designed to represent the spectrum of actual questions that may be asked during case interviews.

The Wall Street Journal calls Case in Point the MBA Bible! Cosentino demystifies the consulting case interview. He takes you inside a typical interview by exploring the various types of case questions and he shares with you the acclaimed Ivy Case System which will give you the confidence to answer even the most sophisticated cases.

You often hear in discussions about case interviews that you should not use standard business frameworks and concepts at all, because they just don't fit to the specific case question and interviewers don't like it when candidates use standard frameworks to solve cases. However, when challenging this shallow, generalized and popularized statements, there aren't any of those arguments remaining on the table. It is most definitely true that you can't crack a realistic interview case by relying solely on standardized frameworks - but all those business frameworks and concepts are extremely helpful templates which you can and even should put into your toolbox and use them whenever appropriate (if not to the full extent, at least partly!). Such a standard business framework is just a tool - and the tool itself is rarely good or bad, it mainly depends on how and for which purpose you use it. With this book, you achieve all of the following: - Get a profound overview of the most important business concepts and frameworks needed in consulting case interviews. - Really understand those business concepts and frameworks, instead of possessing only knowledge of dangerous half-truths. - Impress your interviewer on how structured and therefore client-friendly you tackle tough case interview questions. - Quickly learn how to actually apply those frameworks to concrete business situations, instead of just having a shallow theoretic knowledge of them. - Be more MECE (mutually exclusive, collectively exhaustive) in setting up your overall case structure at the beginning of your case interview. - Better structure your answers to particular questions later on in your case interview, again being more MECE. - Save tons of time by having high-quality content from 10+ years of consulting and interview experience together in one single book. - Significantly reduce the risk of losing a tier-1 consulting firm job offer because you were not structured enough in your interview (and we all know how important it is to be ABS - Always Be Structured). Interview Math provides over 50 practice problems and answers to help job seekers master quantitative interview questions including: Market Sizing Revenue Estimates Profitability Breakeven Pricing Customer Lifetime Value If you're interviewing at one of the highly sought after positions below, you'll need to master these interview math questions: Management Consulting: McKinsey, Bain, Boston Consulting Group, Deloitte General Management: Capital One, Taser Marketing: General Mills, Google, Hershey Software Engineering: Goldman Sachs, Microsoft Finance: American Airlines, Best Buy, JetBlue You'll learn interview math concept and principles - and then master those concepts with over 50 practice questions filled with detailed answers. After going through the book, candidates will feel knowledgeable, confident, relaxed and ready to tackle interview math questions.

Migrate your data to Salesforce and build low-maintenance and high-performing data integrations to get the most out of Salesforce and make it a "go-to" place for all your organization's customer information. When companies choose to roll out Salesforce, users expect it to be the place to find any and all information related to a customer—the coveted Client 360° view. On the day you go live, users expect to see all their accounts, contacts, and historical data in the system. They also expect that data entered in other systems will be exposed in Salesforce automatically and in a timely manner. This book shows you how to migrate all your legacy data to Salesforce and then design integrations to your organization's mission-critical systems. As the Salesforce platform grows more powerful, it also grows in complexity. Whether you are migrating data to Salesforce, or integrating with Salesforce, it is important to understand how these complexities need to be reflected in your design. Developing Data Migrations and Integrations with Salesforce covers everything you need to know to migrate your data to Salesforce the right way, and how to design low-maintenance, high-performing data integrations with Salesforce. This book is written by a practicing Salesforce integration architect with dozens of Salesforce projects under his belt. The patterns and practices covered in this book are the results of the lessons learned during those projects. What You'll Learn Know how Salesforce's data engine is architected and why Use the Salesforce Data APIs to load and extract data Plan and execute your data migration to Salesforce Design low-maintenance, high-performing data integrations with Salesforce Understand common data integration patterns

and the pros and cons of each Know real-time integration options for Salesforce Be aware of common pitfalls Build reusable transformation code covering commonly needed Salesforce transformation patterns Who This Book Is For Those tasked with migrating data to Salesforce or building ongoing data integrations with Salesforce, regardless of the ETL tool or middleware chosen; project sponsors or managers nervous about data tracks putting their projects at risk; aspiring Salesforce integration and/or migration specialists; Salesforce developers or architects looking to expand their skills and take on new challenges

Need to learn case interviews but don't know where to start? This book is designed to get you up and running. By using scripted examples and interviews with experienced recruiters it gives readers an understanding of what a case actually is, and how they can start to prepare. Case interviews are used extensively by most major recruiters, including McKinsey, Bain, BCG, Amazon, Google and many more, and this book contains interviews with recruiters from all of the above companies. The author, Stephen Pidgeon, is a former McKinsey consultant and interviewer who now works as a career coach at the Tuck School of Business. He coaches hundreds of candidates every year, many of whom are successful in their goal of landing their dream job. He is also the author of 'How to get a job in consulting'.

Featuring the Ivy Case System - including a section on government and nonprofit cases.

A groundbreaking history of the Big Questions that dominated the nineteenth century In the early nineteenth century, a new age began: the age of questions. In the Eastern and Belgian questions, as much as in the slavery, worker, social, woman, and Jewish questions, contemporaries saw not interrogatives to be answered but problems to be solved. Alexis de Tocqueville, Victor Hugo, Karl Marx, Frederick Douglass, Fyodor Dostoevsky, Rosa Luxemburg, and Adolf Hitler were among the many who put their pens to the task. The Age of Questions asks how the question form arose, what trajectory it followed, and why it provoked such feverish excitement for over a century. Was there a family resemblance between questions? Have they disappeared, or are they on the rise again in our time? In this pioneering book, Holly Case undertakes a stunningly original analysis, presenting, chapter by chapter, seven distinct arguments and frameworks for understanding the age. She considers whether it was marked by a progressive quest for emancipation (of women, slaves, Jews, laborers, and others); a steady, inexorable march toward genocide and the "Final Solution"; or a movement toward federation and the dissolution of boundaries. Or was it simply a farce, a false frenzy dreamed up by publicists eager to sell subscriptions? As the arguments clash, patterns emerge and sharpen until the age reveals its full and peculiar nature. Turning convention on its head with meticulous and astonishingly broad scholarship, The Age of Questions illuminates how patterns of thinking move history.

Embrace the Case Interview walks you through each step on the path to your dream consulting job as described by a former management consultant who conducted over 100 interviews for a top-tier firm. First, we cover how to get the interview including how to be memorable when speaking with firms prior to the interview and how to write a killer resume and cover letter. Second, we cover the behavioral part of the interview. Often overlooked, the behavioral part of the interview covers your personal experiences and is often just as valuable as the case interview. We discuss the traits interviewers are looking for and how to answer their questions in a structured way. Third, we take an in-depth look at the case interview itself. Unlike books that focus on segmenting cases and applying frameworks, you will learn a single, flexible structure that you will apply to any case with deadly effectiveness. In addition to structuring the case, you will learn approaches for the cases' other parts including qualitative questions, quantitative problems, exhibit analysis, and synthesis. Embrace the Case Interview places a strong emphasis on the quality of your learning rather than just doing hundreds of cases. As such, each example case contains an in-depth discussion of the text book answer to help you improve. For more information, please visit embracecaseinterview.com. Enjoy the book and best of luck in your upcoming interviews!

BUSINESS COMMUNICATION: IN PERSON, IN PRINT, ONLINE, 9E offers a realistic approach to communication in today's organizations. The text covers the most important business communication concepts in detail and thoroughly integrates coverage of today's social media and other communication technologies. Building on core written and oral communication skills, the ninth edition helps readers make sound medium choices and provides guidelines and examples for the many ways people communicate at work. Readers learn how to create PowerPoint decks, use instant messaging and texting effectively at work, engage customers using social media, lead web meetings and conference calls, and more. Important Notice: Media content referenced within the product description

tion or the product text may not be available in the ebook version.

The only way to master the case interview is with practice. The third book in WetFeet'ss Ace Your Case series provides 15 new sample questions. Each book in the series offers an introduction to the case interview; an explanation of the most common question types, with tips for each; and detailed examples of good and bad answers. BUS037020

Mastering the Case Interview outlines the essential interview principles and identifies strategies you can use to master the case analysis. It offers an overview of the most common types of problems given in case interviews, outlines a framework for approaching each type of case, and provides a variety of case interview examples. In addition, this book offers detailed advice on how to manage the interview process: it includes specific interview guidelines, provides sample questions and answers, and outlines practical strategies on how to ace the case interview.

Case Closed is an award-winning, detailed guide to acing the consulting interview. Other consulting prep materials are written by those who have been out of the industry for decades. Case Closed is the only guide written by former McKinsey consultants and interviewers who have been intimately involved in the interview process in the last 2 years. This authoritative resource covers some never-covered-before topics, including: How to write your resume to attract the attention of resume-graders and recruiters at McKinsey, Bain, and BCG Why the "personal experience" (fit) interview matters, what interviewers are probing for, and what types of experiences to prep How the interviewers evaluate your case performance: what matters, and what doesn't How to tackle non-traditional cases that interviewers may throw at you, which no canned framework from the typical case interview books can help with How to prep if you have 60 days, 30 days, or just 2 weeks before

your expected first interview How to hack both in-person interactions and video interview interactions, in a time of COVID-19 The surprisingly good - and surprisingly bad - questions to ask your interviewer during Q&A How to master innovative, universally-adaptable case interview frameworks. Any candidate can regurgitate the frameworks from Case In Point or Case Interview Secrets; nothing there will "wow" an interviewer Countless example cases spanning profitability, new market entry, new product / growth, pricing, M&A, and even non-traditional archetypes Whether you are a current undergrad or MBA looking for an internship or full-time role, or an experienced professional, Case Closed is an investment into your professional future. Stand out from the pack with the latest, cutting-edge secrets to wow your consulting case interviewers. Sean Huang's former proteges span undergraduates, MBAs, advanced degree holders, and experienced hires. These students have landed job offers at top consulting firms, including McKinsey, BCG, and Bain; many have also used the structured thinking he has taught them to land roles at Goldman Sachs IBD, Google BizOps & Strategy, as well as at Fortune 500 strategy groups. "Case Closed has been a lifesaver. It truly contains everything you need to know to ace your consulting interviews and Sean explains things in a clear manner that is easy to understand. After studying Case Closed, I landed my dream job at McKinsey and I've raved about this book to all my friends."-McKinsey New York full time offer, Wharton MBA "I used to be intimidated by the notorious consulting case interviews. For anyone looking to get a job offer to a top consulting firm, Case Closed is honestly the best interview prep book (and I've read all of them). The case interviews in Case Closed were by far the best and most similar to the cases I got in the actual interviews."-Bain San Francisco internship offer, UC Berkeley Haas (undergraduate) "In my panic, I read all of the case interview frameworks from

different case prep books. And that ended up confusing me more because there were so many frameworks but no easy way to remember when to use what. Case Closed walks you through the interview process in such a great way that I started loving case interviews and landed the job." - BCG Boston full time offer, University of Virginia (undergraduate)

Case interviews come in all formats. The key, as an interviewee, is being prepared. Know what the interviewer is looking for, know the industry/sector, the jargon, the constraints and stakeholders, and how people in the industry operate. Government and nonprofit cases span a wide variety of problems, issues, stakeholders, and politics, which makes them trickier than private sector case interviews.

"Do you need to produce clear reports, papers, analyses, presentations and memos? If so, you need The Pyramid Principle. Communicating your ideas concisely and articulately to clients, colleagues or to the management board is a key factor in determining your personal business success. To gain the maximum effect you need to make maximum impact with your ideas upfront."

"Applying the Pyramid Principle means you will save valuable time in writing and waste no time in getting your message across to your audience, making sure they grasp your meaning at once."---

BOOK JACKET.

Written by one of the top professors at Northwestern's Kellogg School of Management, Mastering the Case Analysis offers a systematic approach to analyzing business cases typically given in MBA job interviews. An overdue and much-needed aid to support students' preparation for case interviews, this book introduces an integrative framework for analyzing business problems and offers a detailed overview of the essential methods and concepts used in case analysis.
