"Many guides claim to be 'insider' takes on travel, but few deliver truly out-of-the-ordinary info. This one does . . . many listings will surprise even natives."—New York Daily News Rich with historical and cultural attractions, the Hudson Valley and Catskills area will be celebrating its 400th anniversary in 2009. The region will commemorate Henry Hudson's sail up the river, Robert Fulton's first successful commercial steamship operation, and many more nationally significant events. The region is also a treasure trove for travelers seeking outdoor recreation, five-star dining, cozy bed & breakfasts or comfy inns, as well as galleries, antiques shops, wineries, farm stands, and places to hike, kayak, and canoe. In this completely revised seventh edition, author Joanne Michaels, the most respected travel writer in the region, includes hundreds of places to dine and stay, along with a wealth of information about things to see and do—all within driving distance of New York City, Boston, and beyond. With detailed maps and hundreds of honest reviews about accommodations, eateries, and activities that will appeal to both affluent travelers and those seeking special value, Michael's advice will aid in planning an unforgettable trip.

Created by aquatic experts and field-tested at YMCAs across the nation, YMCA Swim Lessons stresses a developmental approach that's based on current research in child development, pedagogy, motor learning, and motor control. It involves students actively in the learning process, guiding each child through a process of individual exploration that's conducted in a student-centered, caring atmosphere. Teaching Swimming Fundamentals outlines your responsibilities as a swim instructor and provides the basic knowledge you need to teach aquatics. It helps you understand how children learn, then gives you step-by-step instructions to help you put this knowledge to use.

This book contains an incredible collection of facts and figures which is used to detail the history of the Racine Kiltie Kadets Drum and Bugle Corps. In it you will find scores, newsletters, rosters, lists of instructors, management and Parents Club Officers, formal and action photographs and details about all kinds of things related to the Kiltie Kadets. This book also is a trip through time that'll bring back memories of not only how prominent the Kiltie Kadets were as a Class C/Cadet Class Corps, but it's filled with competition results that recall the many corps and a whole segment of the drum corps activity that has disappeared into history.

Bring STEM to life for students with zombies, rockets, celebrities, and more STEM to Story: Enthralling and Effective Lesson Plans for Grades 5-8 inspires learning through fun, engaging, and meaningful lesson plans that fuse hands-on discovery in science, technology, engineering, and math (STEM) with creative writing. The workshop activities within the book are the innovative result of a partnership between 826 National's proven creative writing model and Time Warner Cable's Connect a Million Minds, an initiative dedicated to connecting young people to the wonders of STEM through hands-on learning. Authentically aligned with both the Common Core State Standards and the Next Generation Science Standards, this book provides teachers, after-school and out-of-school providers, and parents with field-tested lessons, workshops, and projects designed by professionals in each field. Including reflective observations by arts and science celebrities like Jon Scieszka, Mayim Bialik, and Steve Hockensmith, lessons feature bonus activities, fun facts, and teaching points for instructors at every level. These quirky, exploratory lessons will effectively awaken student imaginations and passions for both STEM and creative writing, encourage identity with scientific endeavors, and make both science and writing fun. Grades five through eight is the critical period for engaging students in STEM, and this book is designed specifically to appeal to – and engage – this age group. The guided curricula fosters hands-on discovery, deep learning, and rich inquiry skills while feeling more like play than school, and has proven popular and effective with both students and teachers. Awaken student imagination and get them excited about STEM Fuse creative writing with STEM using hands-on activities Make scientific principles relevant to students' lives Inspire students to explore STEM topics further The demand for STEM workers is closely linked to global competitiveness, and a successful future in STEM depends upon an early introduction to the scientific mindset. The challenge for teachers is to break through students' preconceptions of STEM fields as "hard" or "boring," to show them that STEM is everywhere, it's relevant, and it's loads of fun. For proven lesson plans with just a dash of weird, STEM to Story is a dynamic resource, adaptable and applicable in school, after school, and at home.
