7th Annual KombuchaKen—Aseptoray

Now a startup from Israel called AseptoRay has come up with an eco-friendly way to pasteurize drinks without using heat. Not only will it save energy, but it will also retain more vitamins and taste. They're already running pilot systems at PepsiCo's development center in Chicago and at a large juice manufacturing plant in Spain.

Name *. Email *. Website. Save my name, email, and website in this browser for the next time I comment. ← Eco-friendly pasteurization

AseptoRay has developed an eco-friendly cold pasteurization method based on ultraviolet technology. Unlike standard thermal pasteurization methods, AseptoRay's process uses ambient temperatures, reducing the impact on nutritional values and eliminating spores and heat-resistant molds. Its technology is designed to increase food safety, quality, and shelf life, while using less energy.
