Molles, Ecology: Concepts and Applications, 5th Canadian Edition uniquely engages and prepares students to understand key ecological principles and concepts through careful organization, clear and relevant Canadian and global examples, and a conceptual approach to the young science of ecology. Written for students who are taking their first undergraduate course in ecology, Molles 5th Canadian

...

Ecology: Concepts and Applications by Molles places great emphasis on helping students grasp the main concepts of ecology while keeping the presentation more applied than theoretical. An evolutionary perspective forms the foundation of the entire discussion. The book begins with the natural history of the planet, considers portions of the whole in the middle chapters, and ends with another ...
