Educational Planning: approaches, challenges and ...

The Education Action Plan (EAP) is a core component of the University's Quality Assurance (QA) framework. It is a live, iterative document that records the school's educational priorities and actions that have been identified to address these, and other issues that arise from annual, periodic, and ongoing QA mechanisms.

7 Educational Sociology and Educational Policy and Planning. Educational planning generally is understood to be the identification, development, and implementation of strategies designed to attain, efficiently and effectively, the educational needs and goals of students and society. The practice of educational planning is not a new phenomenon and, according to some, can be traced to the writings of Plato, to Renaissance scholars, and more recently to post-Second World War experts.

Education Policy Education policy refers to the collection of laws and rules that govern the operation of education systems. Education occurs in many forms for many purposes.

Education Policy | Boundless Political Science

Through four in-depth case studies of policies in areas of social justice, the Institute for Government has identified eleven lessons for how ministers and officials can give their policies the best chance of getting delivered. These lessons, and particular challenges around implementing policies with a social justice focus, are brought together in the report *Doing them justice*.

Improving policy implementation | The Institute for Government

The programme prepares participants by providing skills and analytical techniques to enable them to design educational planning models, evaluate education systems, implement educational planning options, assess educational policy interventions, and evaluate educational outcomes. The programme offers candidates two areas of specialization, namely Educational Planning and Educational Policy.
