Elizabeth Angela Marguerite Bowes-Lyon (4 August 1900 – 30 March 2002) was the wife of King George VI, and the mother of Queen Elizabeth II and Princess Margaret. She was Queen of the United Kingdom and the Dominions from her husband's accession in 1936 until his death in 1952, after which she was known as Queen Elizabeth The Queen Mother , [2] to avoid confusion with her daughter.

Speech to the Troops at Tilbury - Wikipedia

Elizabeth's Women contains more than an indelible cast of characters. It is an unprecedented account of how the public posture of femininity figured into the English court, the meaning of costume and display, the power of fecundity and flirtation, and how Elizabeth herself—long viewed as the embodiment of feminism—shared popular views of female inferiority and scorned and schemed against her underlings' marriages and pregnancies. Elizabeth in the Bible was married to Zechariah, a priest. She was also a cousin to Mary, the mother of Jesus. The New Testament describes Elizabeth and her husband, Zechariah as "righteous and blameless" people who observed "all the Lord's commands and decrees blamelessly". (Luke 1:6).
