Engine Technology At Bell, whole-life costs and maximum operational productivity for our customers have always been at the very top of our agenda. So when it comes to choosing the right engine technology, whether it be for our ADTs or our wheeled loaders, we first look at what environments those machines operate in and what tasks they perform.

Bell loaders have a distinct advantage over competitors as daily  
maintenance checks and re-fueling are at ground level. Panels  
open easily from the ground, giving wide access to the engine  
dipstick and easy visual check for hydraulic reservoir, coolant,  
and windshield washer levels.
