Medical Engineering and Physics is a diverse and exciting programme that covers the research and analysis of many of the latest advances in medicine. Key Features Students work on defined projects covering the fundamentals of physical and mathematical simulation, medical engineering design, etc.,

faculty of mechanical engineering, transport and aeronautics The Master study programme in Medical Engineering prepares specialists in medical physics. The main parts of the programme comprise courses on developments in theory and practice, project work and management, pedagogy and psychology.

The project scope is to modernize academic programs in the topic of energy efficiency, the project will contribute to education process in such aspects of this topics energy saving like enhancement of energy efficiency, use of renewable sources. Project number: ERASMUS+ project “Physics” 561525-EPP-1-2015-1-LV-EPP-KA2-CBHE-JP – ERASMUS+ CBHE
