Environmental Cooperation in Southeast Asia (Routledge ...

environmental damage poses a region-wide threat, not just a local or national threat. Southeast Asia has a longer history of subregional environmental cooperation than other subregions in Asia and the Pacific. This has a great deal to do with its geopolitical picture. In the 1960s, the subregion was divided by ideological conflict and war.

Environmental Cooperation in Southeast Asia (draft)

Second, national governments in Southeast Asia need to intensify their regional cooperation, given the cross-border character of pollution sources. As Western- and perhaps China-led globalization further exerts its impact on the region, and as urbanization accelerates, urban sustainability concerns and action programmes will inevitably speed up as well.
