The Science of Essential Oils: Does Using Scents Make ...  
Essential Oils Desk Reference This book arrived in the condition expected and packed very well. It has more information than I personally need, but is a very good reference text. However, I find it biased toward Young Living Essential Oils and other Master Cleanses. If you take out the "Young Living" references, the basis information is very sound.

What are essential oils? Essential oils are compounds extracted from plants. The oils capture the plant's scent and flavor, or "essence." Unique aromatic compounds give each essential oil its characteristic essence. Essential oils are obtained through distillation (via steam and/or water) or mechanical methods, such as cold pressing.
