Everyday Blessings is a practical and inspiring book which offers a clear outline for people who want to understand and embrace mindful parenting. It is one of the few books on parenting that embraces the emotional, intuitive and deeply personal experience of being a parent and shows you how to apply the practice of mindfulness meditation to parenting children of all ages. In the rush, rush, rush of too-much-to-do-and-no-time-to-do-it, the important, nurturing aspects of parenthood can easily disappear. Even the smallest degree of mindfulness can have profound effects on children, no matter how old they are, and on the quality of parent-child relationships. Jon Kabat-Zinn, a mindfulness pioneer, and his wife Myla share their experiences of using mindfulness within their own family. By encouraging moment-to-moment awareness and acceptance, this thoughtful and practical book will help you to slow down, grow in compassion, enrich your life as a parent and nourish the internal life of your children.

The bestselling author of the million-copy bestseller *Wherever You Go, There You Are* and *Full Catastrophe Living* joins forces with his wife, Myla, in this revised edition of their groundbreaking book about mindfulness in parenting children of all ages. Welcome to a master class in mindfulness. Jon Kabat-Zinn is regarded as "one of the finest teachers of mindfulness you'll ever encounter" (Jack Kornfield). He has been teaching the tangible benefits of meditation in the mainstream for decades. Today, millions of people around the world have taken up a formal mindfulness meditation practice as part of their everyday lives. But what is meditation anyway? And why might it be worth trying? Or nurturing further if you already have practice? *Meditation Is Not What You Think* answers those questions. Originally published in 2005 as part of a larger book entitled *Coming to Our Senses*, it has been updated with a new foreword by the author and is even more relevant today. If you're curious as to why meditation is not for the "faint-hearted," how taking some time each day to drop into awareness can actually be a radical act of love, and why paying attention is so supremely important, consider this book an invitation to learn more -- from one of the pioneers of the worldwide mindfulness movement.

Our children can be our greatest teachers. Parenting expert Susan Stiffelman writes that the very behaviors that push our buttons — refusing to cooperate or ignoring our requests — can help us build awareness and shed old patterns, allowing us to raise our children with greater ease and enjoyment. Filled with practical advice, powerful exercises, and fascinating stories from her clinical work, *Parenting with Presence* teaches us how to become the parents we most want to be while raising confident, caring children. "Shows parents how they can transform parenting into a spiritual practice." — Eckhart Tolle, author of *The Power of Now* "Clear, wise, soulful, and poetic." — Alanis Morissette

A fully revised and updated second edition, including new research and skills in the areas of trauma and compassion Disruptive behavior in the classroom, poor academic performance, and out-of-control emotions: if you work with adolescents, you are well-aware of the challenges this age group presents, as well as how much time can be lost on your lessons while dealing with this behavior. What if there was a way to calm these students down and

arm them with the mindfulness skills needed to really excel in school and life? Written by mindfulness expert and licensed clinical psychologist Patricia C. Broderick, *Learning to Breathe* is a secular program that tailors the teaching of mindfulness to the developmental needs of adolescents to help them understand their thoughts and feelings and manage distressing emotions. Students will be empowered by learning important mindfulness meditation skills that help them improve emotion regulation, reduce stress, improve overall performance, and, perhaps most importantly, develop their attention. Since its publication nearly a decade ago, the L2B program has transformed classrooms across the US, and has received praise from educators, parents, and mental health professionals alike. This fully revised and updated second edition offers the same powerful mindfulness interventions, and includes compelling new research and skills in the areas of trauma and compassion. The book integrates certain themes of mindfulness-based stress reduction (MBSR), developed by Jon Kabat-Zinn, into a program that is shorter, more accessible to students, and compatible with school curricula. This easy-to-use manual is designed to be used by teachers, but can also be used by any mental health provider teaching adolescents emotion regulation, stress reduction and mindfulness skills. The book is structured around six themes built upon the acronym BREATHE, and each theme has a core message: Body, Reflection, Emotions, Attention, Tenderness, and Healthy Mind Habits, and Empowerment. *Learning to Breathe* is the perfect tool for empowering students as they grapple with the psychological tasks of adolescence. By inviting the Dalai Lama and leading researchers in medicine, psychology, and neuroscience to join in conversation, the Mind & Life Institute set the stage for a fascinating exploration of the healing potential of the human mind. The Mind's Own Physician presents in its entirety the thirteenth Mind and Life dialogue, a discussion addressing a range of vital questions concerning the science and clinical applications of meditation: How do meditative practices influence pain and human suffering? What role does the brain play in emotional well-being and health? To what extent can our minds actually influence physical disease? Are there important synergies here for transforming health care, and for understanding our own evolutionary limitations as a species? Edited by world-renowned researchers Jon Kabat-Zinn and Richard J. Davidson, this book presents this remarkably dynamic interchange along with intriguing research findings that shed light on the nature of the mind, its capacity to refine itself through training, and its role in physical and emotional health.

Despite its inherent joys, the challenges of parenting can produce considerable stress. These challenges multiply—and the quality of parenting suffers—when a parent or child has mental health issues, or when parents are in conflict. Even under optimal circumstances, the constant changes as children develop can tax parents' inner resources, often undoing the best intentions and parenting courses. *Mindful Parenting: A Guide for Mental Health Practitioners* offers an evidence-based, eight week structured mindfulness training program for parents with lasting benefits for parents and their children. Designed for use in mental health contexts, its methods are effective whether parents or children have behavioral or emotional issues. The program's eight sessions focus on mindfulness-oriented skills for parents, such as responding to (as opposed to reacting to) parenting stress, handling conflict with children or partners, fostering empathy, and setting limits. The book dovetails with other clinical mindfulness approaches, and is written clearly and accessibly so that professionals can learn the material easily and impart it to clients. Featured in the text: Detailed theoretical, clinical, and empirical foundations of the program. The complete *Mindful Parenting* manual with guidelines for eight sessions and a follow-up. Handouts and assignments for each session. Findings from clinical trials of the *Mindful Parenting* program. Perspectives from parents who have finished the course. Its clinical focus and empirical support make *Mindful Parenting* an invaluable tool for practitioners and clinicians in child, school, and family psychology, psychotherapy/counseling, psychiatry, social work, and developmental psychology.

Come to your senses with the definitive guide to living a meaningful life from a world expert in the connection between mindfulness and physical and spiritual wellbeing. "[The] journey toward health and sanity is nothing less than an invitation to wake up to the fullness of our lives as if they actually mattered . . ." —Jon Kabat-Zinn, from the Introduction Jon Kabat-Zinn changed the way we thought about awareness in everyday life with his now-classic introduction to mindfulness, *Wherever You Go, There You Are*. Now, with *Coming to Our Senses*, he provides the definitive book for our time on

the connection between mindfulness and our physical and spiritual wellbeing. With scientific rigor, poetic deftness, and compelling personal stories, Jon Kabat-Zinn examines the mysteries and marvels of our minds and bodies, describing simple, intuitive ways in which we can come to a deeper understanding, through our senses, of our beauty, our genius, and our life path in a complicated, fear-driven, and rapidly changing world. In each of the book's eight parts, Jon Kabat-Zinn explores another facet of the great adventure of healing ourselves -- and our world -- through mindful awareness, with a focus on the "sensescapes" of our lives and how a more intentional awareness of the senses, including the human mind itself, allows us to live more fully and more authentically. By "coming to our senses" -- both literally and metaphorically by opening to our innate connectedness with the world around us and within us -- we can become more compassionate, more embodied, more aware human beings, and in the process, contribute to the healing of the body politic as well as our own lives in ways both little and big.

An early childhood development expert shows how to craft a nurturing childhood for your sons and daughters, while minimizing negative societal influences. Based on early-childhood development expert Nancy Carlsson-Paige's thirty years of researching young children, this groundbreaking book helps parents navigate the cultural currents shaping, and too often harming, kids today—and restore childhood to the best of what it can be. As Carlsson-Paige explains, there are three attributes critical to kids' healthy development: time and space for creative play, a feeling of safety in today's often frightening world, and strong, meaningful relationships with both adults and other children—attributes that we, as a society, are failing to protect and nurture. From advising parents on which toys foster creativity (and which stifle it) to guiding them in how to use "power-sharing" techniques to resolve conflicts and generate empathy, Carlsson-Paige offers hands-on steps parents can take to create a safe, open, and imaginative environment in which kids can relish childhood and flourish as human beings. "Dr. Carlsson-Paige explains the many ways our culture and media are threatening our children's healthy development. She gives adults concrete strategies for fighting back. Today's parents need this book."—Marian Wright Edelman, Children's Defense Fund

From Robert A. Johnson, the bestselling author of *Transformation, Owning Your Own Shadow*, and the groundbreaking works *He, She, and We*, comes a practical four-step approach to using dreams and the imagination for a journey of inner transformation. In *Inner Work*, the renowned Jungian analyst offers a powerful and direct way to approach the inner world of the unconscious, often resulting in a central transformative experience. A repackaged classic by a major name in the field, Robert Johnson's *Inner Work* enables us to find extraordinary strengths and resources in the hidden depths of our own subconscious.

More than twenty years ago, Jon Kabat-Zinn changed the way we thought about awareness in everyday life with his now-classic introduction to mindfulness, *Wherever You Go, There You Are*. He followed that up with 2005's *Coming to Our Senses*, the definitive book for our time on the connection between mindfulness and our well-being on every level, physical, cognitive, emotional, social, planetary, and spiritual. Now, *Coming to Our Senses* is being repackaged into 4 smaller books, each focusing on a different aspect of mindfulness, and each with a new foreword written by the author. In the first of these books, *Meditation Is Not What You Think* (which was originally published as Part I and Part II of *Coming to Our Senses*), Kabat-Zinn focuses on the "what" and the "why" of mindfulness—explaining why meditation is not for the "faint-hearted," how meditation can actually be a radical act of love, and why paying attention is so supremely important. By "coming to our senses"—both literally and metaphorically—we can become more compassionate, more embodied, more aware human beings, and in the process, contribute to the healing of the body politic as well as our own lives in ways both little and big. Honor life's milestones and bring sacredness into everyday life. *The Book of Blessings and Rituals* shows you how to create ceremony and meaning around the most important events in your life. Drawing from different world traditions, leading metaphysical teacher Athena Perrakis presents blessings to cover a wide array of occasions and intentions, including holidays and sacred days, love, healing, protection, prosperity and success, lunar blessings and rituals, and manifestation. Organized by month, you'll be able to celebrate the sacred all year long. DIY projects and rituals will help you perform each blessing. You'll learn how to construct medicine bundles and altars, which crystals to use to amplify the rituals or clear energy, and how to smudge for clearing and protection. In addition, you'll learn how to use the power of invocations and blessings to set the energy of your home or event and to assist in amplifying goals and intentions. Deepen your experience of the sacred, find inspiration, and heal with this non-denominational guide to blessings and rituals.

The international bestselling mindfulness guide. Mindfulness is considered the heart of Buddhist meditation. But its essence is universal and of deep practical benefit to everyone. In *Wherever You Go, There You Are*, Jon Kabat-Zinn maps out a simple path for cultivating mindfulness in our lives, and awakening us to the unique beauty and possibilities of each present moment. From the author of the bestselling *Anam Cara* comes a beautiful collection of blessings to help readers through both the everyday and the extraordinary events of their lives. John O'Donohue, Irish teacher and poet, has been widely praised for his gift of drawing on Celtic spiritual traditions to create words of inspiration and wisdom for today. In *To Bless the Space Between Us*, his compelling blend of elegant, poetic language and spiritual insight offers readers comfort and encouragement on their journeys through life. O'Donohue looks at life's thresholds—getting married, having children, starting a new job—and offers invaluable guidelines for making the transition from a known, familiar world into a new, unmapped territory. Most profoundly, however, O'Donohue explains "blessing" as a way of life, as a lens through which the whole world is transformed. O'Donohue awakens readers to timeless truths and shows the power they have to answer contemporary dilemmas and ease us through periods of change.

An expert in child, family and school psychology and the founder of *Mindful Life* presents a revolutionary approach to parenting that, rooted in the science of the brain and integrating cognitive neuroscience and child development, helps children feel happier, healthier, less anxious and less stressed. Original.

This is a new edition of David Spangler's classic book on manifestation. It has been out of print for some time but the comments of Willis W. Harman, Former President, Institute of Noetic Sciences are still relevant: A number of recent writers have set out to unveil our amazing power to manifest what we want; none have made it so clear that true effectiveness comes from choosing to align what we want with the transpersonal will, as Spangler terms it. His book is lively and easy to read; his clarity, simplicity, and deep wisdom are inspiring.

Throughout our lives we long to love ourselves more deeply and find a greater sense of connection with others. Our fear of intimacy—both with others and with ourselves—creates feelings of pain and longing. But these feelings can also awaken in us the desire for freedom and the willingness to take up the spiritual path. In this inspiring book, Sharon Salzberg, one of America's leading spiritual teachers, shows us how the Buddhist path of lovingkindness (metta in Pali), can help us discover the radiant, joyful heart within each of us. This practice of lovingkindness is revolutionary because it has the power to radically change our lives, helping us create true happiness in ourselves and genuine compassion for others. The Buddha described the nature of such a spiritual path as "the liberation of the heart, which is love." The author draws on simple Buddhist teachings, wisdom stories from various traditions, guided meditation practices, and her own experience from twenty-five years of practice and teaching to illustrate how each one of us can cultivate love, compassion, joy, and equanimity—the four "heavenly abodes" of traditional Buddhism.

If you've ever struggled with depression, take heart. Mindfulness, a simple yet powerful way of paying attention to your most difficult emotions and life experiences, can help you break the cycle of chronic unhappiness once and for all. In *The Mindful Way through Depression*, four uniquely qualified experts explain why our usual attempts to "think" our way out of a bad mood or just "snap out of it" lead us deeper into the downward spiral. Through insightful lessons drawn from both Eastern meditative traditions and cognitive therapy, they demonstrate how to sidestep the mental habits that lead to despair, including rumination and self-blame, so you can face life's challenges with greater resilience. This e-book includes an audio program of guided meditations, narrated by Jon Kabat-Zinn, for purchasers to stream or download from the Web. One of the greatest religious leaders of our age shows us how to use meditation to achieve enlightenment. The Dalai Lama visited New York in 2003 and gave a series of lectures, culminating in a public talk in Central Park, which drew over a quarter of a million people. Based on these lectures, this new volume will provide practical instruction on how we can use meditation to realize the mind's phenomenal potential. Leading the reader through the diverse schools of Buddhist philosophy, this book also shows us how to let go of our own strong ideas of self and how to find a little more happiness in life, for ourselves and for others. For all the millions of followers of the Dalai Lama's writings, and for anyone yet to be introduced to his thinking, *A Profound Mind* is the perfect book to learn how to dedicate our positive activities to the benefit of all in order to build a better world. Other titles by the Dalai Lama *The Art of Happiness* *The Art of Happiness in a Troubled World* *The Art of Happiness at Work* *The Wisdom of Forgiveness*

Jay Shetty, social media superstar and host of the #1 podcast *On Purpose*, distills the timeless wisdom he learned as a monk into practical steps anyone can take every day to live a less anxious, more meaningful life. When you think like a monk, you'll understand: -How to overcome negativity -How to stop overthinking -

Why comparison kills love -How to use your fear -Why you can't find happiness by looking for it -How to learn from everyone you meet -Why you are not your thoughts -How to find your purpose -Why kindness is crucial to success -And much more... Shetty grew up in a family where you could become one of three things—a doctor, a lawyer, or a failure. His family was convinced he had chosen option three: instead of attending his college graduation ceremony, he headed to India to become a monk, to meditate every day for four to eight hours, and devote his life to helping others. After three years, one of his teachers told him that he would have more impact on the world if he left the monk's path to share his experience and wisdom with others. Heavily in debt, and with no recognizable skills on his résumé, he moved back home in north London with his parents. Shetty reconnected with old school friends—many working for some of the world's largest corporations—who were experiencing tremendous stress, pressure, and unhappiness, and they invited Shetty to coach them on well-being, purpose, and mindfulness. Since then, Shetty has become one of the world's most popular influencers. In 2017, he was named in the *Forbes* magazine 30-under-30 for being a game-changer in the world of media. In 2018, he had the #1 video on Facebook with over 360 million views. His social media following totals over 38 million, he has produced over 400 viral videos which have amassed more than 8 billion views, and his podcast, *On Purpose*, is consistently ranked the world's #1 Health and Wellness podcast. In this inspiring, empowering book, Shetty draws on his time as a monk to show us how we can clear the roadblocks to our potential and power. Combining ancient wisdom and his own rich experiences in the ashram, *Think Like a Monk* reveals how to overcome negative thoughts and habits, and access the calm and purpose that lie within all of us. He transforms abstract lessons into advice and exercises we can all apply to reduce stress, improve relationships, and give the gifts we find in ourselves to the world. Shetty proves that everyone can—and should—think like a monk.

A major figure in the transmission of Zen to the West, Zen Master Seung Sahn was known for his powerful teaching style, which was direct, surprising, and often humorous. He taught that Zen is not about achieving a goal, but about acting spontaneously from "don't-know mind." It is from this "before-thinking" nature, he taught, that true compassion and the desire to serve others naturally arises. This collection of teaching stories, talks, and spontaneous dialogues with students offers readers a fresh and immediate encounter with one of the great Zen masters of the twentieth century.

Mindfulness opens us up to the possibility of being fully human as we are, and of expressing the humane in our way of being. Mindlessness de facto closes us up and denies us the fullness of our being alive. This book may on the surface appear to be merely another offering in the genre of daily readings. But deep within these 108 selections lie messages of profound wisdom in a contemporary and practical form that can lead to both healing and transformation. We so urgently need to rotate in consciousness in order to safeguard what precious sanity is available to us on this planet. How we carry ourselves will determine the direction the world takes because, in a very real way, we are the world we inhabit. Our world is continuously being shaped by our participation in everything around us and within us through mindfulness. This is the great work of awareness. Welcome to the threshold . . . to the fullness of arriving at your own door!
