Purchase this title NEW and get 150 additional questions online plus all of the questions in the book. See what students are saying about the previous edition... Worth every penny. "I found this to be helpful from the very first chapter. I was able to apply the ideas to the very next test I took in nursing school and have found it changed the way I view nursing school. It breaks it down to the various types of questions asked and how to approach them. It teaches you to brush aside the distracting and unnecessary aspects of the questions and teaches you to hone in on what really is essential. It even helps you break down the dreaded 'select all that apply' questions. I highly recommend this book to any and all first-year nursing students." —Suzanne Chick Amazing. "The FA Davis Test Success book is amazing. In lecture, we're told how to deal with "nursing" questions but it can still be puzzling. The test success book is wonderful and gives you examples and explanations, and then a practice test to use the test-taking tips in and gauge your success." —Nina, Durham Technical Community College Great Techniques To Know BEFORE Starting School. "...this has helped tremendously. It breaks down the types of testing questions and gives hints on how to process it and choose the most correct answer. As well as ways to calm yourself on the day of the test and ways to prepare for

test day. If you have test anxiety this will definitely help with calming your testing fears. I've read from several buyers of this book to read it before you start school and I definitely agree!" —J N Moore

ARCHITECTURAL DRAFTING AND DESIGN, Seventh Edition, is the definitive text for beginning, intermediate, or advanced architectural CAD operators. This full-color, comprehensive edition covers the basics of residential design while exploring numerous types of projects that a designer or architect is likely to complete during the design process. The Seventh Edition is up-to-date with content based on the most recent editions of relevant codes, including the 2015 International Residential Code (IRC), the 2015 International Building Code (IBC), the 2015 International Energy Conservation Code (IECC), and the 2012 International Green Construction Code (IgCC). The text opens with information on architectural styles that have dominated the field over the last four centuries, followed by basic design components related to site and structure. Commercial drafting, basic construction materials, common construction methods, and drawings typically associated with commercial construction are also covered. This bestseller complements informational content with practical, hands-on material, including step-by-step instructions for the design and layout of each type of drawing associated with a complete set of architectural plans—all presented via projects that can be completed using CAD drawing methods. This proven text equips readers with the knowledge and skills needed to complete the drawings that most municipalities require to obtain a building permit for a single-family residence.
