What Are the Flour Babies? Flour babies are, as the name suggests, six-pound (2,72 kg) sacks of flour that are meant to pass as babies in a scientific school experiment. The babies' "parents", charged with taking care of such a precious load for 3 weeks, are the 14 years old children from the naughtiest and worst learning class in an all boys school.

Although the main protagonist of Anne Fine's Flour Babies (opinionated and often rather annoying and careless teenager Simon Martin) really and majorly despises school work, he does nevertheless and grudgingly accept his assignment of having to take home a large bag of flour and then look after and take care of said bag like a baby, like a newborn infant (well in Flour Babies, the take-home project uses bags of flour, while other similar types of school projects have and even in reality featured
