'Life Kitchen is a celebration of food' Lauren, Sunderland 'The recipes are just really simple, really easy and delicious' Carolyn, Newcastle 'His book is better than a bunch of flowers because it's going to last forever' Gillian, Sunderland Ryan Riley was just eighteen years old when his mum, Krista, was diagnosed with cancer. He saw first-hand the effect of her treatment but one of the most difficult things he experienced was seeing her lose her ability to enjoy food. Two years after her diagnosis, Ryan's mother died from her illness. In a bid to discover whether there was a way to bring back the pleasure of food, Ryan created Life Kitchen in his mum's memory. It offers free classes to anyone affected by cancer treatment to cook recipes that are designed specifically to overpower the dulling effect of chemotherapy on the taste buds. In Life Kitchen, Ryan shares recipes for dishes that are quick, easy, and unbelievably delicious, whether you are going through cancer treatment or not. With ingenious combinations of ingredients, often using the fifth taste, umami, to heighten and amplify the flavours, this book is bursting with recipes that will reignite the joy of taste and flavour. Recipes include: Carbonara with peas & mint Parmesan cod with salt & vinegar cucumber Roasted harissa salmon with fennel salad Miso white chocolate with frozen berries With an introduction from UCL's taste and flavour expert Professor Barry Smith, this inspiring cookbook focusses on the simple, life-enriching pleasure of eating, for everyone living with cancer and their friends and family too. 'This book is a life changer: this is not gush, but a statement of fact' Nigella Lawson

Here's How to Teach Voice and Communication Skills to Transgender Women is a detailed guide to help speech-language pathologists (SLPs) provide instruction for male-to-female (MtF) transgender women during their transition process. This program guides SLPs to safely modify a MtF transgender woman's voice through behavioral modification therapy. SLPs can teach this population how to modify their voice through good vocal hygiene, vocal relaxation, breath support, pitch, resonance, breathiness, and verbal and nonverbal communication exercises. This text presents the Voice and Communication Program for Transgender Women (VCMtF Program), which was developed to train graduate speech-language pathology students how to deliver voice and communication services. The purpose of this text is to share the VCMtF Program with other SLPs who will provide voice and communication services to transgender women. The VCMtF Program is unique because it is easy to use, manualized, and systematically targets voice, verbal communication, and nonverbal communication. Included in this text are resources for the clinician, an introduction to the VCMtF Program, methods and materials for assessment, and comprehensive program sessions. The VCMtF Program is divided into eight sessions with step-by-step instructions for every exercise. Each session is organized using material lists, approximate times, teaching methods, check-ins, feedback, and homework. There are check boxes to mark off the completion of exercises in each area of the program and there is space for the SLP to make clinical observations. Exercises and targets are set up within a hierarchy so that the level of difficulty may be tailored to each client's abilities and how far she has advanced in the VCMtF Program. Also included are videos to support the exercises used in the program.

For the first time in history, eradicating world poverty is within our reach. Yet around the world, a billion people struggle to live each day on less than many of us pay for bottled water. In The Life You Can Save, Peter Singer uses ethical arguments, illuminating examples, and case studies of charitable giving to show that our current response to world poverty is not only insufficient but morally indefensible. The Life You Can Save teaches us to be a part of the solution, helping others as we help ourselves.

She was abducted in the middle of the night... Don't scream. Don't scream. Don't scream. Jayda doesn't need to hear that. And it makes Daisy cry. But a scream is burning in my chest as they haul me to "the chair." My tears mean nothing. My soft begging is pointless. They grab my arms and legs and strap me down and put that damn wand to my head... the one that reaches inside my mind and starts tearing it apart... We escaped that nightmare—Jayda, Daisy and me—and now I just want my life back to normal. Forget those crazy aliens with their pointed ears. Forget all the screams. But as soon as I step on the set—my big chance as a Guest Star in a new medical drama—all of it comes rushing back. If it weren't for that hot new Production Assistant, I'd probably be in a psych ward by now. The Universe is finally giving me a break. Grace is desperate to put her life back together. Theo will do anything to keep her safe and help her heal... except tell her who he really is. And how he's the reason she was taken in the first place. Counting days to Christmas is one of the most stressful things for a Christmas elf. Santa wants everything to be perfect and ready for his departure around the world. It was one of those cold, windy days on North Pole. It was heavily snowing and a thick crust of frozen snow covered all the area around the Santa's kingdom. Elves were working hard and day by day, they got almost everything ready and set. The main thing about making and wrapping Christmas presents is that every year, there is different number of them. The amount of presents depends on how many good children deserved to be visited by Santa. Every year, the list of good children gets shorter or longer. This is very important thing to know because Christmas elves sew special Christmas bags for all the presents to fit in. These bags are made out of special kind of cloth which stretches and widens for exact number of presents. Are your children refusing to go to bed. Maui's ocean is beautiful, wild... and deadly. It's been five years since the events of Rip Tides, and Sergeant Lei Texeira gets into hot water much deeper than she's used to at a crime scene ninety feet down off of the tiny atoll of Molokini. The death of beautiful marine biologist Danielle "Lani" Phillips is anything but an accident, and more suspects than a school of sharks circle a case that takes Lei into territory that hits dangerously close to home.

You've experienced the shiny, point-and-click surface of your Linux computer—now dive below and explore its depths with the power of the command line. The Linux Command Line takes you from your very first terminal keystrokes to writing full programs in Bash, the most popular Linux shell. Along the way you'll learn the timeless skills handed down by generations of gray-bearded, mouse-shunning gurus: file navigation, environment configuration, command chaining, pattern matching with regular expressions, and more. In addition to that practical knowledge, author William Shotts reveals the philosophy behind these tools and the rich heritage that

your desktop Linux machine has inherited from Unix supercomputers of yore. As you make your way through the book's short, easily-digestible chapters, you'll learn how to: * Create and delete files, directories, and symlinks * Administer your system, including networking, package installation, and process management * Use standard input and output, redirection, and pipelines * Edit files with Vi, the world's most popular text editor * Write shell scripts to automate common or boring tasks * Slice and dice text files with cut, paste, grep, patch, and sed Once you overcome your initial "shell shock," you'll find that the command line is a natural and expressive way to communicate with your computer. Just don't be surprised if your mouse starts to gather dust. A featured resource in the Linux Foundation's "Evolution of a SysAdmin"
