### 286A54 - FINN CARLEE

Comprehensive mathematics foundation section. Work on formulae and equations, the mole, volumetric analysis and other key areas is included. Can be used as a course support book as well as for exam practice. Best-selling, experienced chemistry author.

A revision guide, covering all the material in the AQA Science GCSE specification.

This book provides a quick look at the content of Unit P2 of the AQA GCSE Physics course (and the Additional Science course). All the specification points are covered in simple bullet-point form. The text is accompanied by a good selection of full-colour illustrations and photographs. Includes sections on how to revise, maths and How Science Works.

The second edition of this popular student textbook presents an up-to-date and comprehensive introduction to the process and practice of teaching and learning science in the secondary school.

This textbook provides comprehensive yet concise coverage of all the topics covered in the new AQA GCSE Computer Science Specification 8520, written in a clear and understandable style with many in-text questions to test students' understanding of the material and their ability to apply it. This will be invaluable not only as a course textbook but also as a revision guide. Each of the eight sections cover one of the major topics in specification sections 3.1 - 3.7 for Paper 1 and Paper 2 of this course. Each subtopic contains sample examination questions from past examination papers, which can be set as homework. Answers to all these are available to teachers only, in a Teachers Supplement which can be ordered free from our website as a downloadable pack. This book has been approved by AQA.

What happens when after ten years of what you thought was a happy and normal family life your wife suddenly turns your world upside down and leaves, leaving you, heartbroken and in shock and with two expectant young children to care for and raise? First you hit the bottle, get seriously drunk and hit a downward spiral in free fall, heading for certain disaster. Then, once you've hit rock bottom, you take stock of the situation, pick yourself up, dust yourself down and begin the long and difficult climb out of the abyss, putting life together again piece by arduous piece. This is what happened to Brian Rowlands and this is his true story. Beginning with the end of his marriage, this book charts his and his children's journey along the long and very rocky road they encountered as they struggled to re-build their shattered lives and put some kind of stability and substance back in place. Filled with many highs and lows and told in an honest and open manner this book charts the last ten years in this single parent family's remarkable life. From heartbreak to happiness, through disastrous relationships, difficult medical problems and eleven different homes in five years, their story will entertain, enthrall and shock. Drawing the reader in, once started it is a book that the reader will want to go on reading, page after page, leaving you begging for more and wanting to know just what happens next.

"Boy meets girl. Boy is English, girl Hungarian: boy has a good job at a very well-known boarding school in England; girl is an au pair who wants to get back to Hungary as soon as possible. Boy discovers he knows a man who is running an International school in Hungary and he is desperate for boy to work for him. Boy decides you can't fight that sort of coincidence, chucks in the good job at the well-known boarding school and follows the girl to Budapest ... This is a book about real life in one of Europe's most fascinating cities. Ray Dexter shows us deep inside the Hungarian soul and also inside the minds of the expats who have also ended up in the Hungarian Girl Trap"--P. [4] of cover.

These new resources have been written to match the 2016 OCR GCSE Gateway Science (9-1) specifications. Built-in assessment and differentiation supports students of all abilities and makes progress tracking easy. Maths skills and practical skills are developed throughout with ramped practice questions and differentiated learning outcomes.

Our revision resources are the smart choice for those revising for Pearson Edexcel GCSE (9-1) Biology Higher and Pearson Edexcel GCSE (9-1) Combined Science Higher. Are you looking to get a grade 7-9 in your exam? This book aims to help you nail it by giving you: \* Expert advice to help you get to grips with the tougher exam questions \* Worked examples and fully worked answers to show you what the best answers will look like \* Plenty of opportunity to practise the more challenging exam-style questions \* Hints and advice to develop your exam technique to help you access the higher marks.

Francis Joseph Cassavant is 18. He has just returned home from the Second World War, and he has no face. He does have a gun and a mission: to murder his childhood hero. Francis lost most of his face when he fell on a grenade in France. He received the Silver Star for bravery, but was it really an act of heroism? Now, having survived, he is looking for a man he once admired and respected, a man adored my many people, a man who also received a Silver Star for bravery. A man who destroyed Francis's life.

Meeting the Needs of Your Most Able Pupils: Science provides specific guidance on: recognising high ability and multiple intelligences planning, differentiation and extension/enrichment teacher questioning skills support for more able pupils with special educational needs (dyslexia, ADHD, sensory impairment) homework recording and assessment beyond the classroom: visits, competitions, summer schools, masterclasses, links with universities, businesses and other organisations. This book in-

cludes comprehensive appendices with linked resources available online that feature: useful contacts and resources lesson plans liaison sheets for Teaching Assistants homework activities monitoring sheets. Answering six mark questions in your GCSE is much more than just writing down six correct things. There is a skill to answering them that needs to be practiced. Here I have written 25 questions on each subject, given you the answers and guided you through how to answer to get full marks. The more you practice, the more confident you'll be in the exam! Example Question 58 - Renewable and Non-Renewable Energy Sources In June 2017, for the first time, over 50% of energy in the UK was supplied by renewable energy. The UK government is leading a drive to promote the increased use of renewable energy sources for generating electricity. Evaluate the use of renewable and non-renewable energy sources. Planning.... \* Evaluate give good points, bad points your opinion and justify your opinion \* You can use a table for planning \* What are the good points (aim for at least 2)? \* What are the bad points (aim for at least 2)? \* What is your opinion? \* Explain why you have that opinion \* Don't stress too much about your opinion, the examiner is never going to cross-examine you on this, just make one up Table of Contents \* Exam command words \* Glossary of exam command words \* How to answer 6-mark questions \* How the examiners will mark your work \* Biology \* 1 - Drugs \* 2 - Respiration \* 3 - Genetic Engineering \* 4 - Plant Growth \* 5 - Digestive System \* 6 - Reflex Arcs \* 7 - Leaves \* 8 - Pathogens \* 9 - Genetic Testing \* 10 - Contraception \* 11 - IVF \* 12 - Defence Against Pathogens \* 13 - Drugs in Sport \* 14 - Cloning \* 15 - Stem Cells \* 16 - Menstrual Cycle \* 17 - IVF \* 18 - Cells \* 19 - Enzymes \* 20 - Homeostasis \* 21 - Blood \* 22 - Genetic Disorders \* 23 - Enzymes \* 24 - Hormonal Contraception. \* 25 - Plants \* Chemistry \* 26 - Covalent bonding \* 27 - Rates of Reaction (concentration) \* 28 - Atoms and Ions \* 29 - Magnesium Chloride \* 30 - Reactivity series \* 31 - Extracting Copper \* 32 - Rates of Reaction (Temperature) \* 33 - Water \* 34 - Properties of mystery white powders \* 35 - Fractional Distillation \* 36 - Diamond and Graphite \* 37 - Le Chatelier's Principle \* 38 - Evolution of Atmosphere \* 39 - Life Cycle Assessment \* 40 - Metals \* 41 - Carbon in the Atmosphere \* 42 - Reactivity in Group 1 and Group 7 \* 43 - States of Matter \* 44 - Rate of Reaction (surface area) \* 45 - The Periodic Table \* 46 - Models of the Atom \* 47 - Group 1 \* 48 - Group 7 \* 49 - Aluminium Electrolysis \* 50 - Acids and Alkalis \* Physics \* 51 - Generators \* 52 - Radioactivity \* 53 - Journeys \* 54 - Thermistors \* 55 - Nuclear Power \* 56 - Isotopes \* 57 - Forces \* 58 - Renewable and Non-Renewable Energy Sources \* 59 - AC/DC \* 60 - Surfaces \* 61 - Car Safety \* 62 - Climate Change \* 63 - Heating \* 64 - National Grid \* 65 - Energy Changes \* 66 - Diodes \* 67 - Circuits \* 68 - Waves \* 69 - Electromagnetic Spectrum \* 70 - Loudspeakers \* 71 - Waves \* 72 - Newton's Laws of Motion \* 73 - Atmosphere \* 74 - Weight and Mass \* 75 - Electrical Safety \* Answers

This book contains everything you need to know to get started as an online tutor. It covers the essentials of tutoring, choosing your tech and software, managing homework, and getting set up alongside detailed guidance focusing on each level of tuition. With techniques developed through research and first-hand experience, the author explains exactly how to turn existing subject knowledge into effective tutoring for students of all ages in a variety of subjects. Divided into two parts, the first answers the logistical questions facing every new tutor such as: what equipment do I need? Where can I apply? How much should I charge? The second half focuses on how to tutor different age groups effectively and subject-specific areas including English, Maths, and Science, as well as the author's tried-and-tested '5 step' process for choosing a subject, assessing a student, and planning their first lessons. There is also information on how to support students writing personal statements and applying to university, as well as teaching English as a Second Language. Alongside tailored, up-to-date information on available software, hardware, exam specifications, and the online tutoring marketplace, the book contains a 10-week timetable of adaptable lesson plans so new tutors can get started immediately. Finally, there are two additional downloadable chapters which expand on less common subjects and another which includes a digital download of every resource from the book. With suggestions for resources, homework, and timings to support you at every stage, this is an essential read for anyone wanting to succeed as an online tutor.

Help your students perfect their understanding and prepare for examinations with accessible science content presented at the right level. An accessible Revision Guide that completely covers the most recent specification with up-to-date revision questions. Written by best-selling authors with substantial examining experience at both Foundation and Higher level for CCEA. - Ensures students' understanding with clear worked examples and content written at the correct level - Provides practice for assessment with lots of Revision Questions - Enables students to improve their grade with helpful exam tips that covers key terminology and guidance on preparing for assessment - Helps students to practise and remember key terms with a full Glossary

Board-specific Teacher Support Packs provide advice and assistance on how to approach this new qualification. This Pack is appropriate for Edexcel and includes information on how to prepare students for external assessment and how to assist them in preparing their portfolios.

A physics GCSE study guide that covers the 2000 syllabus and offers a structured revision programme covering everything you need to know for your exam. It includes more than 1,500 interactive tests and coverage of the curriculum to help you focus on your revision, providing real examination practice and reinforcing classroom study. Explanations for each question aid understanding and recall, and past exam papers and times tests give you real exam practice. Hints on effective revision planning help you to reduce exam stress and put you in control and topics on the best exam techniques can gain you valuable marks.

Intended for achieving examination success, this series replaces the former GCSE Study Guides. This book which are part of the new Revise GCSE series offers complete study and reference support for the Science GCSE course as well as being a revision guide for the Science GCSE examinations and Scottish Standard Grade. It provides a breakdown of the syllabuses and exam structure for every exam board, advice on studying, revising, coursework and exams, topic-by-topic coverage, clearly presented with many examples and diagrams, quick tests for every topic to check progress, and a bank of recent GCSE exam questions with answers to fine-tune exam techniques.

Exam tutor and walk-through Over 500 exam-style revision questions with model answers Exam tips and coaching just like a tutor would offer Two complete practice exam papers Answers to all questions Specification references for every topic A perfect companion to our ClearRevise illustrated revision book. Make exam revision as easy as 1, 2, 3. Study the questions with model answers on the left pages Have a go at fresh questions from the same topic on the right Breeze through two com-

plete practice papers ClearRevise is all about making your revision easy. At the end of the course, doing practice papers is useful - but an exam tutor can make a big difference. This book helps provide support from both angles and will really help you to ace the exam. The first section is your exam tutor. It shows you example questions with model answers. Just like a tutor, it gives you exam tips and lets you know what the examiner is looking for. Secondly, you are then given similar questions from the same topic for you to have a go at, applying your knowledge and tips. With over 400 marks in this section and all the answers provided you'll easily revise the topics as you go. Lastly, there are two complete exam papers written in the same style as the live OCR papers to try. They're exactly the same length and marks as the real exam, providing a realistic experience and a great opportunity to show how much you've progressed.

A student book for those studying for AQA Entry Level Certificate Science.

Freesciencelessons is the most viewed GCSE Science channel on Youtube and has helped countless students to achieve or exceed their expectations in their GCSE Science exams. This is the companion workbook for the GCSE Combined Science Higher Biology 1 videos for the AQA specification. Written by Shaun Donnelly (who appears in every video), this book contains hundreds of questions to guide students through the course. Accompanied by detailed on-line answers, this is the perfect resource for every student following the AQA specification. Every topic is covered in depth, including all the required practicals. A specimen exam paper is also included, allowing students to check their progress across the subject.

Series Editor: Stella Paes Part of the 2nd edition (2018/2019) AQA GCSE (9-1) Science Lab Book series, providing separate books for each of the Single Sciences (Biology, Chemistry and Physics) and one Combined Science book. Aligned precisely with the AQA GCSE (9-1) Science specifications, the write-in Lab books cover the full range of practicals needed to cover AQA's practical requirements for both the Trilogy and Synergy courses. Each 2nd edition Lab Book guides students through the scientific process and includes: all the instructions students need to perform the Required Practical with confidence and fully grasp the scientific methodology writing frames structured around the assessment objectives to allow students to record, analyse and evaluate their results exam-style questions focused on common problem areas for students a Practical Skills checklist, so that students can track the practical skills and content they have learnt in preparation for their exam and free on-line technician notes. All the worksheets and methods have been reviewed and checked by CLEAPSS so you can be certain the practicals work and are safe in the classroom.

Practise and prepare for AQA GCSE Combined Science with hundreds of topic-based questions and one complete set of exam practice papers designed to strengthen knowledge and prepare students for the exams. This extensive practice book raises students' performance by providing 'shed loads of practice', following the 'SLOP' learning approach that's recommended by teachers. - Consolidate knowledge and understanding with practice questions for every topic and type of question, including multiple-choice, multi-step calculations and extended response questions. - Develop the mathematical, literacy and practical skills required for the exams; each question indicates in the margin which

skills are being tested. - Confidently approach the exam having completed one set of exam-style practice papers that replicate the types, wording and structure of the questions students will face. - Identify topics and skills for revision, using the page references in the margin to refer back to the specification and accompanying Hodder Education Student Books for remediation. - Easily check answers with fully worked solutions and mark schemes provided in the book.

How to Achieve 100% in a GCSE - Guide to GCSE Exam and Revision Technique Written by a teenager for teenagers, this simple guide guarantees success in your GCSE's. Having achieved 10 A\* grades (4 with a score of 100%), the author shares practical tips on exam and revision technique, including specific subject advice. The book is written with the belief that everyone has the potential to achieve 100% in a GCSE. "What a fantastic book! A truly great idea. I wish the book had been around years ago when I was doing my O and A levels. Rob makes some excellent points and the book is full of good sense." - Lorna Read, Editor, Writing Ltd

Exam Board: WJEC Level: GCSE Subject: Science First Teaching: September 2016 First Exam: Summer 2018 Target success in Science with this proven formula for effective, structured revision; key content coverage is combined with exam-style tasks and practical tips to create a revision guide that students can rely on to review, strengthen and test their knowledge. This brand new set of resources, focuses on raising levels of interest and achievement in Foundation GCSE candidates. This is the only Foundation Level course that is written to cover all major specifications, preparing students for Single and Double Award Sciences.

Are you sitting the new 9 to 1 GCSE examinations and wish to achieve good grades? Are you overwhelmed by the new syllabus and the workload? Do you need some useful and reliable guidance from a student who has nailed the exams? This book has been written by a teenager, like you. Having achieved seven 9s, three A\*s and one A in his GCSEs, the author has shared his revision style to help many other teenagers to realise their potential. In his book, Rohan has outlined his tried and tested methods to achieve the best grades. There is step by step guide on planning, making a timetable, and revision techniques leading up to the GCSE exams. There are separate chapters for subject-specific advice as the same technique cannot work for subjects like English and Chemistry. There are tips on how to stay motivated and also relax and enjoy at the same time. Smart working rather than a lot of working helps. Read this book and arm yourself with studying techniques which will help you not only in your GCSEs but all future exams.
