Gendered Spaces . A critical concept in the geography of gender is the idea of gendered spaces. Gendered spaces are areas in which particular genders of people, and particular types of gender expression, are considered welcome or appropriate, and other types are unwelcome or inappropriate. Gendering of spaces is an important means by which social systems maintain the organization of gender.

Overview of Human Geography: Gender and Sexuality

This deliberately broad session seeks to explore the mutual formation of gender, feminisms and sexualities within geographies. Contemporary events have foregrounded pressing issues that require analyses that consider place as a key in sexual-gendered realities.
