Ideally you should study one week of material per study session. This means that you need about 10, 20 minute sessions to cover this material well. Maybe more, but that is a minimum of 4 hours between now and the final. Devote at least one hour per day, divided into 3 sessions. Study during your peak hours – not late or when you are fatigued.

#### [General Biology I: Foundations of Biology](#)

A major in General Biology will allow you to study life in all forms: animals, plants, bacteria, and fungi. This includes in-depth research on different organisms, their communities, and their systems, cells, and processes that permit life. Biology is a hands-on subject that will allow you to learn through experiments and doing.

#### [2021 General Biology Degree Guide | Find Your Future ...](#)

The Biology examination covers material that is usually taught in a one-year college general biology course. The subject matter tested covers the broad field of the biological sciences, organized into three major areas: molecular and cellular biology, organismal biology, and population biology. The examination gives approximately equal weight to these three areas.
