Granger Causality Analysis of Geophysical, Geodetic and Geochemical Observations during Volcanic Unrest: A Case Study in the Campi Flegrei Caldera (Italy) by Simona Tripaldi 1,* , Sergio Scippacercola 2,3 , Annarita Mangiacapra 3 and Zaccaria Petrillo 3

15.6 Geodetic and geophysical measurements and observation of fundamental physical phenomena An accurate model of the shape of the Earth is a very important aspect of any terrestrial navigation system, as has already been discussed in Chapter 3. However, fluctuations in the rotational characteristics of the Earth also have an impact on the ...
