The 100 Greatest Mathematicians

In between work, family, friends, and life's other major and minor tasks, 929 is an opportunity for a personal challenge that is full of interest, meaning, learning, curiosity and enjoyment.

Hobbes and Descartes.. Hobbes thought in an atmosphere of dualism—yet Hobbes was a resolute opponent of dualism. From 1637, the date of the Discours, the relation between matter and mind, body and soul, was a cardinal— the cardinal problem. Descartes had awarded to each substance co-ordinate, independent, absolute rights.

I wish geometry was taught in this way when I was in school. Curriki's new Project-based Learning (PBL) high school Geometry course is now available. For so many students, it's difficult to make a real-life connection between math and their everyday lives.

Jeep Wrangler and Cherokee problems: the "Death Wobble" / severe shimmy. Norm Layton wrote that the "Jeep death wobble" is

basically a shimmy, and can affect any suspension with a continuous tie rod (which nearly all solid axles have) to connect the front wheels.

Mindspark is an adaptive online tutoring system that helps teachers and students to study Maths effectively through questions, practice, games, reports, remedials, enrichments. Our aim is that every child should learn with understanding.

Secant Line -- from Wolfram MathWorld

Like most other ancient philosophers, Plato maintains a virtue-based eudaemonistic conception of ethics. That is to say, happiness or well-being (eudaimonia) is the highest aim of moral thought and conduct, and the virtues (aretê: 'excellence') are the requisite skills and dispositions needed to attain it. If Plato's conception of happiness is elusive and his support for a morality of ...

About

A secant line, also simply called a secant, is a line passing through two points of a curve. As the two points are brought together (or, more precisely, as one is brought towards the other), the secant line tends to a tangent line. The secant line connects two points $(x, f(x))$ and $(a, f(a))$ in the Cartesian plane on a curve described by a function $y=f(x)$.
