If you want to learn more, see the ggmap reference manual and read Introduction to visualising spatial data in R by researchers at the University of Leeds. Also see other amazing packages like tmap, which creates useful thematic maps.

Map Plots Created With R And Ggmap — Little Miss Data ggmap - Latitude and Longitude Coordinates

Geocoding with ggmap and the Google API | R-bloggers
To mitigate against users inadvertently sharing their keys, by default ggmap never displays a user's key in messages displayed to the console. Users should also be aware that ggmap has no mechanism with which to safeguard the private key once registered with R. That is to say, once you register your API key, any function R will have access to it.

```
