The Changing Global Order | Coursera**

### **Global Disorder- What Are the Options? | Graham E. Fuller**

Summary: Suter makes clear the process of globalization, now the most important factor in world politics, is undermining that world order and leading to world disorder. Global change is running ahead of governments' abilities to manage it and economics

is only part of the process.

“The new global order is global disorder, and not merely in trade,” former Minister of Commerce and Industry of India Kamal Nath said at Davos. The growth of political tensions, trade wars and protectionism are indications of the world processes that threaten to destroy globalization and phase out not only the innovative Industry 4.0 that ...

On Global Order Power, Values, and the Constitution of International Society Andrew Hurrell. This book is concerned with the fate of international society in an era of globalization and the ability of the inherited society of sovereign states to provide a practically viable and normatively acceptable framework for global political order.

He explains the process of globalization and uses the technique of scenario planning to examine alternative forms of global order

and disorder. The current world order is ending. The old order has been based on nation-states, or countries, with centralized national governments. As Keith Suter makes clear, the process of globalization, which is now the most important factor in world politics, is undermining that world order and leading to world disorder.

Global Order and Global Disorder means that machines can be destroyed at a faster rate, with less chance of ever being repaired. All the major conventional wars since the early 1960s that have resulted in a clear victory have been won in about six weeks: most notably the two Middle East conflicts of 1967 and 1973, the Falklands/Malvinas in 1982 and the Gulf War of 1991.
