This text provides an important overview of the contributions of edible insects to ecological sustainability, livelihoods, nutrition and health, food culture and food systems around the world. While insect farming for both food and feed is rapidly increasing in popularity around the world, the role that wild insect species have played in the lives and societies of millions of people worldwide cannot be ignored. In order to represent this diversity, this work draws upon research conducted in a wide

range of geographical locations and features a variety of different insect species. Edible insects in Sustainable Food Systems comprehensively covers the basic principles of entomology and population dynamics; edible insects and culture; nutrition and health; gastronomy; insects as animal feed; factors influencing preferences and acceptability of insects; environmental impacts and conservation; considerations for insect farming and policy and legislation. The book contains practical information for researchers, NGOs and international organizations, decision-makers, entrepreneurs and students.

First published in 2005. Routledge is an imprint of Taylor & Francis, an informa company.

The 'Southern Question' has been a major topic in Italian political, economic and cultural life for a century and more. During the Cold War, it was the justification for heavy government intervention. In contemporary Italy, a major part of the appeal of the Lombard League has been its promise to dissociate the South from the North, even to the point of secession. The South also remains a resonant theme in Italian literature. This interdisciplinary book endeavours to answer the following: - When did

people begin to think of the South as a problem? - Who - intellectuals, statisticians, criminologists, political exiles, novelists (among them some important southerners) - contributed to the discourse about the South and why? - Did their view of the South correspond to any sort of reality? - What was glossed over or ignored in the generalized vision of the South as problematic? - What consequences has the 'Question' had in controlling the imaginations and actions of intellectuals and those with political and other forms of power? - What alternative formulations might people create and live by if they were able to escape from the control of the 'Question' and to imagine the political, economic and cultural differences within Italy in some other way? This timely book reveals how Southern Italians have been affected by distorted versions of a complex reality similar to the discourse of 'Orientalism'. In situating the devaluation of Southern Italian culture in relation to the recent emergence of 'anti-mafia' ideology in the South and the threat posed to national unity by the Lombard League, it also illuminates the world's stiff inter-regional competition for investment capital.

A full-spectrum collection of photos of the late Queen Elizabeth II—spanning ten de-

acades of fashion and every color of the rainbow. This riotously colorful book takes a prismatic journey through a century of styles worn by British Monarch Queen Elizabeth II. Each photo is gloriously accessorized with captions and commentary by journalist and broadcaster Sali Hughes, who provides fascinating context. Readers will learn how the Queen used color and fashion in strategic and discreetly political ways, such as wearing the colors of the European flag to a post-Brexit meeting or a pin given to her by the Obamas to a meeting with Donald Trump. With stunning photographs that span feature brilliant colors ranging from the dusky pinks the Queen wore in girlhood through to the neon green dress that prompted the hashtag #NeonAt90, this must-have collection celebrates the iconic fashion statements of the UK's longest reigning and most vibrant monarch. This is a joyful celebration of the Queen's life, as well as her personal style and political mastery.

Published 1882-5, this three-volume register of Archbishop John Peckham of Canterbury is an important source for thirteenth-century history.

This book is unique as no other novel can claim to be: one of 109,027,350,432,000 possible variations of the same work of fiction. Inspired by the legend of Tristan and Isolde, *Tristano* was first published in 1966 in Italian. But only recently has digital technology made it possible to realise the author's original vision. The novel comprises ten chapters, and the fifteen pairs of paragraphs in each of these are shuffled anew for each published copy. No two versions are the same. The random variations between copies enact the variegations of the human heart, as exemplified by the lovers at the centre of the story. The copies of the English translation of *Tristano* are individually numbered, starting from 10,000 (running sequentially from the Italian and German editions). Included is a foreword by Umberto Eco explaining how Balestrini's experiment with the physical medium of the novel demonstrates 'that originality and creativity are nothing more than the chance handling of a combination'.

There was time when my country was the country of fairy tales, a country where every child would want to grow and play. This is the story of the author's physical

and emotional journey from her war-torn homeland, Somalia. Some time after the military coup in 1969 Shirin left Mogadishu and moved to Italy to make a new life and home for herself and her family. Since then she has crossed continents and lived in several cities, facing the challenge of integrating with many different kind of society before settling in England in 2010. This book encapsulates her reflections on the Somali diaspora.

"English Mistakes Italians Make" is a practical example-based learning tool for students of all levels from Intermediate to Advanced, and a resource book for teachers wishing to focus on specific language areas. As well as a classification of typical errors made by Italian learners, it provides suggested corrections and, where appropriate, a brief analysis and/or advice on learning strategies. The book is ideal for those wishing to eliminate errors from their spoken and written English in preparation for exams such as Cambridge FCE, CAE and CPE or IELTS. Cross-referencing allows students to compare and contrast related language items. Each chapter is supplemented with exercises that are suitable for both

self-study purposes and classroom use. Keys for these exercises, including sample answers for open-ended questions, are supplied.

Stereotypical representations of the Mezzogiorno are a persistent feature of Italian culture at all levels. John Dickie analyzes these stereotypes in the post Unification period, when the Mezzogiorno was widely seen as barbaric, violent or irrational, an "Africa" on the European continent.
