"This resource will help classroom teachers and staff better serve the needs of their Aboriginal students. The process of development was one of consultation, information gathering, drafting, more consultation and re-drafting. The contributors to this resource include Aboriginal Elders, teachers and psychologists, as well as other members of Alberta's Aboriginal communities. Culturally-relevant approaches effectively serve the learning needs of Aboriginal students. Traditional and contemporary Aboriginal cultures offer a number of frameworks for understanding, guiding, learning from and teaching students. The relationship between student and teacher is the heart of Aboriginal education. The teacher's relationship with each student is based on observing and learning about the individual child and his or her unique learning needs in order to help the child grow holistically--spiritually, physically, mentally and emotionally. This resource offers information about Aboriginal cultures and perspectives, practical ideas, and sample strategies that will help teachers meet the needs and recognize the gifts of Aboriginal students. Many of the sample strategies are good for all students and are relevant for a range of educational settings and contexts. The guiding principles reflect understanding and respect of diversities of aboriginal cultures, languages and histories, respectful classroom atmosphere, collaborative relationships with families and communities and teacher recognition and continued assessment of the learning strengths and needs of each Aboriginal student. The resource is organized into seven chapters: (1) World-views and Aboriginal Cultures: Where hearts are rooted; (2) Aboriginal Students: Who are they? How do they learn?; (3) The Classroom: A community of learners; (4) School, Family and Community: Sharing the responsibility; (5) Learning Strategies for Aboriginal Students: Opportunities to make learning meaningful; (6) Assessment: Authentic reflections of important learnings; and (7) Teaching Aboriginal Students with Learning Disabilities: Recognizing gifts and strengths. Each chapter contains information, sample strategies, shared wisdom from Aboriginal scholars and Elders, and related stories shared by Aboriginal teachers and liaisons. An index and feedback form are included in this document. (Contains 25 appendices.)"-- from [://eric.ed.gov/?id=ED491527](http://eric.ed.gov/?id=ED491527).

Divine Stories is the inaugural volume in a landmark translation series devoted to making the wealth of classical Indian Buddhism accessible to modern readers. The stories here, among the first texts to be inscribed by Buddhists, highlight the moral economy of karma, illustrating how gestures of faith, especially offerings, can bring the reward of future happiness and ultimate liberation. Originally contained in the Divyavadana, an enormous compendium of Sanskrit Buddhist narratives from the early Common Era, the stories in this collection express the moral and ethical impulses of Indian Buddhist thought and are a testament to the historical and social power of narrative. Long believed by followers to be the actual words of the Buddha himself, these divine stories are without a doubt some of the most influential stories in the history of Buddhism.

Mitchell is an alpha among alphas in the brutal Mountain Ridge Pack. He rules with equal parts fear and respect, but his pack is growing restless after decades without an heir to his proverbial throne. Only an alpha and an omega pair can sire another alpha to lead the pack, but Mitchell's not-so-secret shame is the fact that he hasn't been able to impregnate any of his female omegas.Unlike the other weaker packs, the Mountain Ridge wolves have always kept their omegas in line and at a safe distance through the infamous yet efficient Breeding Program. On the recommendation of an old rival turned tentative friend, Mitchell decides to try his hand--among other things--in a last-ditch effort at siring an heir with a rare male omega. When a transfer request for one of the only male omegas in the pack uncovers unspeakable abuse and corruption within the Breeding Program, the very future of the pack is thrown into question. -Angel's heart has turned to stone after a lifetime of abuse at the hands of the alpha shifters who oversee the Breeding Program in his pack unit. Despite his best attempts to steel himself against the strange bond that forms between them, Angel discovers that Mitchell is the most dangerous alpha of all because he wants the one thing Angel has sworn never to give--his heart.With war looming on
