Envoy was a great read, and I highly recommend it to avid Halo lore readers and newcomers to the series as well, as long as you have somewhat of a basic understanding of the games. But even then, Tobias Buckell does a good job of explaining everything without it feeling like a slog for those who already know some backstory.

Halo done badly. Where do I start? For anyone who has read other HALO books ENVOY maybe a bit of a let down. It lacks the detailed and typical finesse of the other books. It does not paint a good descriptive picture of what's going on in the story. It's like the Author only has passing knowledge of the halo universe.
