Nelson Handwriting contains six workbooks for infants and five full colour pupil books, one for each year group. The books are sequenced for progression and contain three levels of differentiation designed for a wide range of abilities. The books introduce, teach and develop the technical aspects of key handwriting skills in meaningful, relevant language contexts. They have been organized in such a way that you can teach handwriting to the whole class, groups and individuals. They contain increased provision for the early years, introducing exit flicks from the beginning, provides structured units which offer a teaching focus point followed by opportunities for practice and gives support and extension copymaster options. They contain improved assessment provision which helps to assess progress and encourages pupils to monitor their own development.

Penpals for Handwriting is a complete handwriting scheme for 3-11 year olds. The Practice Books provide specific handwriting focused practice - either introducing or practising letters, joins or key con-

cepts such as size and proportion. They are designed to support independent practice in the classroom, following a whole-class teaching session. Each page corresponds to the units within the Teacher's Books and includes opportunities for: Finger and pencil tracing, writing letters or joins; Writing phrases or sentences; Pattern practice; Self-assessment check. Having learnt individual letters previously, children are introduced to letters within words for the first time in Year 1.

These worksheets draw on material from a variety of genres including fiction, non-fiction, poetry, journalism, advertising and public information. The varied topics and material are ideal for reinforcing understanding across the curriculum.

Spanish Sentence Builders is a workbook aimed at beginner to pre-intermediate students co-authored by two modern languages educators with over 40 years of extensive classroom experience between the two, both in the UK and internationally. This 'no-frills' book contains 19 units of work on very popular themes, jam-packed with graded vocabulary-building, reading, translation, retrieval practice and writing activities. Key vocabulary, lexical patterns and structures are recycled and interleaved throughout. Each unit includes: 1) a sentence builder modelling the target constructions; 2) a set of vocabulary building activities; 3) a set of narrow reading texts exploited through a range of tasks focusing on both the meaning and structural levels of the text; - a set of retrieval-practice translation tasks; 4) a set of writing tasks targeting essential micro-skills such as spelling, lexical retrieval, syntax, editing and communication of meaning. Based on the Extensive Processing Instruction

(E.P.I.) principle that learners learn best from comprehensible and highly patterned input flooded with the target linguistic features, the authors have carefully designed each and every text and activity to enable the student to process and produce each item many times over. This occurs throughout each unit of work as well as in smaller grammar, vocabulary and question-skills micro-units located at regular intervals in the book, which aim at reinforcing the understanding and retention of the target grammar, vocabulary and question patterns.

The objectives of Book 1 are to establish good basic habits of paper positioning and pencil hold, and to develop the fine motor skills needed for accurate, consistent writing. It presents techniques and practice for left-handers, along with guidelines for parents and teachers.
