across the world who are involved in what we have defined as (Harcourt and Escobar 2002) women's "place-based" politics: movements of resistance to mainstream politics and development in women's everyday lives, centred around the body, the household, the environment and the community. These small groups do not work in isolation.

Arturo Escobar (born 1952) is a Colombian-American anthropologist and the Kenan Distinguished Professor of Anthropology at the University of North Carolina at

Chapel Hill, USA. His academic research interests include political ecology, anthropology of development, social movements, anti-globalization movements, and postdevelopment theory.

In *Women and the Politics of Place*, Wendy Harcourt and Arturo Escobar analyze women's economic and social justice movements by challenging traditional views. The authors reveal how an interrelated set of transformations around body, environment, and the economy factors into place-based practices of women and how these provide alternative ways of advancement in these mobilizations.
