KBO8RB - TATE LOGAN

HighScope Ireland Institute. HighScope is a quality approach to early childhood care and education which has been shaped and developed by research and practice over 50 years. It identifies and builds on children's strengths, interests and abilities. The central belief of HighScope is that children construct their own learning by doing and being actively involved in working with materials, people and ideas.

HighScope "Wheel of learning" "Wheel of Learning" is the diagram that illustrates the curriculum principles that guide practitioners in their daily work with children. It is built by 5 elements: Active Participatory Learning, Adult-child Interaction, The Daily Routine, Learning Environment and Assessment.

WHEEL OF LEARNING / KEY DEVELOPMENTAL INDICATOR CARD. A convenient, durable graphic organizer for teachers to quickly review the building blocks of the HighScope approach. This up-to-date version includes the HighScope Wheel of Learning on one side and 58 key developmental indicators (KDIs) on the other. In a glance, teachers and administrators can use this handy laminated card to check that programs and teaching are aligning with professional standards.

What Are the Five Ingredients of the HighScope Approach ...

1) " which allows children to have direct experiences that will support their growth and knowledge of the world. HighScope encourages a "Shared control," ("Adult-Child Interaction," n.d., para. 2) manner of interaction between adults and children, so both parties have a role in learning experiences. The environment of a classroom is set-up to be a predictable sequence, while "Children's interests and choices are at the heart of HighScope programs."

HighScope's wheel of active learning has four 'spokes': Adult/Child Interaction, Learning Environment, Daily Routine, and Assessment. Adult-child interaction: High/Scope teachers relate to children not as managers but as friends and partners. They support children's choices of activities, play with them on their level, focus on their strengths, and encourage them to find solutions to their own problems.

The HighScope method was founded in 1970 as part of the Perry Preschool Project, a project created to provide early childhood education to young children from poor families in Ypsilanti. As part of the project, children who were enrolled in the program participated in a study to find out how preschool affected their academics.

High-Quality Early Childhood Education | HighScope

The HighScope approach to learning seeks to provide an environment in which children become active participants in learning. Five "ingredients" go into the "recipe" for this type of learning: materials, manipulation, choice, child language and thought, and adult scaffolding. All of these ingredients work together to produce a setting in which active participatory learning can occur.
