The background paper models differ from the 3D plans in that they only include a frontage, and part of two sides, and the roof of each HO building. The purpose of this is so that HO scale modelers can save valuable layout space by positioning only part of a structure against the backdrop rather than needing to include a larger 3D building.

200+ "Uniquely Designed" Printable Plans Download - Print - Build. These PDF plans are easy to download, and you'll find the structures inexpensive to build, strong when constructed, and wonderfully realistic. When assembled, position the model buildings on your N scale, OO gauge, or HO scale railroad, or use them to add character and authenticity to a diorama scene. The appeal of Cardstock modeling is driven by more than just economics. Although there is a definite savings in not having to buy extra construction materials, there is also a sense of accomplishment and satisfaction in creating a complete structure with just a few sheets of paper and an ink-jet printer. My experience is that an inkjet produces better results than a color laser printer.
