The SRi ditches the mainstream Barina's weeny little 1.4 with its 66 rippling kilowatts and in goes a 92kW 1.8-litre unit pinched from big-brother Astra. We've said it before, but while there remains nothing inherently clever about the big-engine-small-car formula, it's a devastatingly effective way to build a performance car.

Holden has not ventured that far into the den of iniquity. But it hasn't made a token effort either. While the local engineers who tinkered with the SRi had a sound chassis from which to work in the first place, the wider track, lower ride height, stiffer suspension and use of 15-inch rims with 185/55 rubber all combine to improve the handling properties.
