Learning Center | Home Theater Connection Guide – Monster ...

Usually, using a 16-gauge wire is recommended for most home theater applications. However, if the wiring network for your home theater requires more than 50 feet of wire or if you want to set up in-wall or ceiling speakers, you may need to use a thicker wire (preferably 14 or 12-gauge) because long cable runs can cause considerable power losses.

6 Must-See Tips to Manage Wiring for Your Home Theater Setup

Click the buttons at the top to add Audio/Video components to the diagram. Click or to add or remove outputs from a component. Use the first drop down list on each component to connect to a different component. Use the second drop down list to change the type of wire.

Wiring Diagrams for your Entertainment System

A HOME THEATER NETWORK HTN consists of HOME automation, home THEATER and home NETWORK systems. Connecting a Home Theater Network can be confusing.
