ESP. Divination. Psychometry. Telekinesis. Astral vision. You've heard of all these talents. The amazing truth is that you can have all of these abilities when you practice the simple, but powerfully effective, exercises in Melita Denning and Osborne Phillips' Practical Guide to Psychic Powers. World-famous experts Denning and Phillips explain exactly what you need to develop your own innate abilities, including advice on diet, rest, and exercise. They advise you to meditate daily, and give instructions how you can bring this wonderful skill into your life. They also reveal how

you can make your own tools for psychic development, such as a pendulum, ESP cards, and a Vision Mirror. Practical Guide to Psychic Powers explains that your attitude is important in establishing these abilities in your life. You'll discover how to eliminate boredom and stress, practice mental concentration for long periods, and have foreknowledge of the future. Many of the exercises to help you to develop psychic abilities are in the form of games, making them fun, preventing boredom, and creating faster success. For example, you'll learn a game of guessing dice, one with ESP cards, and another that uses the

vision mirror to predict your future. The book teaches you how to become aware of the impressions a material object has gathered, the art of psychometry. You'll learn about contacting spiritual entities the way Spiritualists do. You'll also discover the secrets of dowsing and how to develop and use this ability. Denning and Phillips are known for their clarity of thought and for having effective techniques, as demonstrated in Practical Guide to Psychic Powers. Get your copy today.

There could be many reasons why you're drawn to this book — or perhaps synchronicity had a part to play in that this book somehow found you! Are you looking for answers as to what happens to your loved ones after they've passed? Perhaps you're wondering what you should do after having had your own psychic experience. Whether you're a student of psychic studies or a practicing medium, a believer or a skeptic, or someone who is bereaved as a result of a loss, this book was written

to provide you with all the answers to your questions about the Other-Side. In *Bridging Two Realms*, renowned psychic medium John Holland offers one of the clearest pictures anyone could have of the Spirit World. He draws on his decades of personal experiences with Spirit, and includes inspirational stories and real-life case studies, to help you pursue the unfoldment of your own spiritual abilities safely and wisely. His hope is to help the bereaved by giving them comfort and inspiration in knowing that there really is life after physical death. There is evidence of the Spirit World and what happens in those spiritual realms. Your loved ones are just a thought away, and you can still communicate with them. They're still close, and they often try to reach out to us to lend their love and support. Ultimately, you will learn that mediumship is not just about connecting to the Spirit World; it's just as much about helping and healing the living. There are spiritual bridges that can be built to connect to your loved ones who have passed, as well as the most important bridge of all: the bridge to your own spirit.

Margaretta and Catherine Foxs successful

communication with a spirit entity in 1848 sparked a new understanding of the spirit world in the United States. This new movement is called Modern Spiritualism. Based on Spiritualism's rich tradition, Elizabeth Owens demonstrates how one can develop natural clairvoyant skills in order to hear the "wisdom of the spirits." Emphasizing patience and practice, the author insists that clairvoyance is possible for everyone. She explains many forms of clairvoyance (psychometry, clairsentience, clairaudience, and so on), and offers examples based on her own experiences and those of six other Spiritualist mediums. Exercises in meditation, memory development, visualization, and symbol interpretation progressively help readers enhance and cultivate their own innate gift of the "sixth sense."

This fascinating book, long a classic in the fields of psychic phenomena and spiritualism, speaks directly to today's awakened interest in the occult. Psychic power is an ability to perceive, that which is beyond the normal human senses and through extrasensory perception. Humans have five senses: sight, smell, taste, sound, and touch. Although some call psychic abilities the sixth sense, people with psychic abilities generally have over-exaggerated human senses. An empath is a person with the special gift of perceiving the emotions and feelings of other people as though they were their own without even trying. They are naturally tuned in to the energies floating around them. If an empath walks into a room and sits next to a person who's quietly mourning, the empath will pick up on the sorrow and experience it as though it were their own. An empath who lacks awareness of their gift can be deeply conflicted, as they cannot tell apart their own feelings from those of others. Humans are born with psychic senses or psychic power but because this ability is not encouraged to grow, people tend to forget about it. Those who continue to pursue this power tap into it mostly when they grow up and begin

looking into their spirituality or when they have a desire to connect with a higher being. A number of people can experience their psychic abilities on a day-to-day basis. Others cannot comprehend the weird senses they get while others chose to give psychic power other names such as intuition or gut feeling. If life is a resume, then psychic abilities can be considered valuable points in it. Even so, it's not their existence that makes them important, but the fact that you can help other people by using them. It is like having a beautiful horse, one of a kind, but savage, that can't be ridden. That horse becomes truly special when you succeed in domesticating it and start using it for your purposes. The goal of this book is simple To help you understand the empathic nature much better and give you clear-cut techniques on how to shield your energy from harsh environments and also begin realizing your psychic potential and become confident and empowered as you journey into the world of psychic power. Other things You will also learn in the book include: - How to Develop your psychic abilities - Aura Reading - Spirit Guides - What is an empath and how to recognize it? - How to recognize if

you are an empath - Understanding the potentials of your energy and abilities - How to stop absorbing stress and draining of energy - Get into intimate relationships - How to find the right work that feeds you - The ways of developing yourself as an empath And more than 3 hours of guided meditation for you!

We all have it in us to be psychic. Although some are more sensitive than others, we can all learn how to release our potential with the help of the simple techniques and straightforward exercises that Billy Roberts has created, developed and refined in extensive workshops. Many of his methods are based on Eastern and metaphysical traditions, adapted so that they will appeal to those with a secular outlook, as well as to the more spiritual student - for whom the development of psychic abilities creates a greater realisation of the soul and its independence of the body. Psychic powers are, broadly speaking, those abilities for which contemporary science has no explanation. Clairvoyance, healing, precognition telepathy and mediumship are all examples of psychic abilities. These are skills which helped our prehistoric forebears communicate before the

advent of speech. Psychic development is, therefore, not so much a case of receiving knowledge as of remembering what we have long since forgotten.

Clear, practical instructions for utilizing and developing the incredible psychic powers latent in all of us. Carrington shows how to banish fear and how to utilize your subconscious mind effectively.

We've all seen ads late at night on television or in the back of newspapers promising expert advice from psychic readers. However, everyone has innate qualities within their own minds that they can utilize for a psychic experience to gain more insight regarding a personal question or situation. While it is sometimes beneficial to receive guidance or insight from an uninvolved third party, you can start the process of expanding your intuition and broadening your perspective at home, without spending \$2.99 per minute. Quality psychic readers are out there, but if you have an interest in such a thing, it is worth your time to learn how to tap into your own well of psychic energy. It doesn't necessarily require any tools besides an open mind and a drive toward self-exami-

nation. Everyone has a different level of psychic ability, as each person's individual personality is a key element in unlocking those abilities. Each person does, however, have the potential to maximize their potential and sharpen their skills. In this book you will learn what defines being a psychic as well as how to tap into your energies and identify and practice your psychic strengths. So, take advantage of this great opportunity and quickly and easily learn how to develop your psychic abilities!

We are all born with psychic abilities and use them every day, whether knowingly or not. Have you ever heard the telephone ring and known who was calling before anyone spoke? Or had a gut feeling about someone or something that ultimately proved true?
