'Tamil' is one of those words whose origin and root-meaning are wrapped up in mystery. All that we can say at present without any fear of contradiction is, that it is a pure Tamil word being current as the only name of the language of the Tamils, from the days that preceded the First Tamil Academy established at Thenmadurai on the river pahruli in the submerged continent. After some of the Vedic Aryans migrated to the South, Tamil got the descriptive name 'Tenmoli' lit. 'the southern language', in contradistinction to the Vedic language or Sanskrit which was called 'Vadamoli', lit. 'the northern language'. The word 'Tamil' or 'Tamilan' successively changed into 'Dramila', 'Dramila', 'Dramida' and 'Dravida' in North India and at first denoted only the Tamil language, as all the other Dravidian dialects separated themselves from Tamil or came into prominence one by one only after the dawn of the Christian era. That is why Sanskrit and Tamil came to be known as Vadamoi and Tenmoli respectively. This distinction could have arisen only when there were two languages standing side by side, one in the North and the other in the South, both coming in contact with each other. The Buddhist Tamil Academy which flourished in the 5th century at Madurai went by the name of 'Travida Sangam'. Includes essays on twentieth-century literature in Assamese, Bengali, Gujarati, Hindi, Kannada, Malayalam, Marathi, Panjabi, Tamil, Telugu, and Urdu as well as Indian literature in English.

This book explores the transformation of Indian media in the context of two major developments: globalisation (which Sociologist Anthony Giddens terms as being 'revolutionary') and advances in communication technologies. It is rich in empirical details of how the Indian media has evolved in the past two decades, particularly in the context of potential to transform, construct and nurture particular identities in response to globalisation. The study of the transformation of Indian media is significant because not only has globalisation allowed access to a host of things hitherto represented as 'foreign' to Indian culture by the media, but it has also opened the floodgates for foreign media. Adopting a multi-disciplinary approach, this book looks at the role of media in purveying political, economic and cultural identities, the current definitions of 'we', 'they', and the 'other', and how the 'other' is perceived in contemporary India. The discussions cover all forms of media, that is, newspaper, films, radio, television and online media, along with media policy and other economic challenges facing the media.
