The Rosary begins with the Apostles Creed, followed by one Our Father, three Hail Marys (traditionally offered for an increase in faith, hope, and charity for those praying the Rosary), a Glory Be, and, if desired, the Fatima Prayer.

Three primary languages go into websites: HTML, CSS, and JavaScript. HTML is responsible for the content of web pages -- things like text, images, videos, and headings are controlled by HTML. CSS is for styling websites, so colors, fonts, and the positioning of elements. We can use CSS to style the content we create with HTML.

The HTML <title> tag is visible at the top of the web page. It helps the user generate a short page heading or title. It is different from the main body of the document.

HTML stands for HyperText Markup Lan-

guage, which can be a confusing term for many beginners. The best way to explain HTML is to examine the meaning of each word. HyperText refers to text that contains links to other texts. Every time you click on a highlighted or underlined link that takes you to another page, you are using hypertext.
